

PREUS TO ASK COURTS TO FIX LEGALITY

GOVERNOR WISHES TO SUCCEED THE LATE SEN. NELSON

"CALL OF PEOPLE OF STATE SUCH THAT HE FEELS IT DUTY TO FILL VACANCY"

DECISION OF ATTORNEY GENERAL HILTON CITED ON APPOINTMENT NECESSARY

(By United Press)
St. Paul, May 9.—Governor Preus wishes to succeed the late Senator Nelson to the United States senatorship, but will first ask the courts to determine the legality of the contemplated procedure, he indicated in a statement today.

"The call of the people of this state is such that I feel it is my duty to fill the vacancy," he said.

"This would be most indicative of me were it not the expressed wish of the late Senator Nelson."

"Attorney General Hilton has advised me that Chapter 520 of the laws of Minnesota of 1913 is valid and controlling. This means that there must be an appointment to fill the vacancy. I want this determined by the courts or politicians and self-seeking persons would question the point in any event."

"The most of public opinion desired me to go to the senate. At that time I declined to be a candidate. The call of the people is now such that I feel it is my duty to respond. That is all I have to say at this time."

The governor will retain his office until the courts have given him an opinion.

S. D. Inventor Perfects Device for Control of Motor Temperatures

Huron, S. D., May 9.—After a year's effort, E. I. Bowe of this city has perfected a device for the control of the motor temperature of automobiles and has received from the United States patent office his patent rights to manufacture and market the product.

The device places control of the radiator cooling fan's operation in the hands of the driver through the medium of the degree of tension given to the fan drive belt. This result is obtained by a lever connection to the fan shaft whereby the tension is increased so that the fan may be operated or even stopped entirely.

The motor may be kept at a high temperature in the winter with no danger of freezing. No radiator cover is needed when the control is used, as the temperature is regulated by the mechanism.

POLICE SHAKEUP IN MINNEAPOLIS

(By United Press)
Minneapolis, May 9.—Another police shakeup took place today when A. C. Jensen dropped two patrolmen suspended another, and confirmed other suspicions and dismissals.

Several men had been dropped and suspended by Inspector John J. Galvin during the absence of the chief.

LINEMAN FALLS 40 FEET FROM POLE

(By United Press)
Hibbing, May 9.—Harry Wessea, lineman, was seriously injured late yesterday when he fell forty feet from a telephone pole. A cross arm on which he was standing gave way. Wessea was taken to a hospital and is expected to recover.

CHARCOAL FIRE PROVES STUBBORN

(By United Press)
Escanaba, Mich., May 9.—Fire breaking out in a three hundred foot pile of charcoal at the plant here last night required the work of three fire companies before it was brought under control five hours later.

Government Troops Pursuing Chinese Bandits

RUSSIAN GUNBOAT CAPTURED ANOTHER ENGLISH TRAWLER

(By United Press)
London, May 9.—A Russian gunboat today captured another English trawler off Murmansk, alleging it was fishing in Russian territorial waters, according to a Central News dispatch from Hull. The subject of seizure of British trawlers by Russian crafts was one of the principal subjects of a 10-day ultimatum sent Moscow by the British government yesterday. Great Britain demanded compensation. It is reported that a Russian reply will suggest arbitration.

MRS. WINTER ASKS FEDERATION TO BACK MOVE AGAINST WAR

CLUB PRESIDENT, IN ATLANTA CONVENTION, PRESENTS LETTER

WRITTEN BY HARDING COMMENDING SUPPORT OF THE WORLD COURT

Atlanta, May 9.—With the late arrivals expected from far corners of the United States, delegates to the midbiennial council meetings of the General Federation of Women's clubs yesterday were prepared for their first business session of the week's calendar. Organization preliminaries were accomplished, and the opening session was conducted in the Baptist tabernacle.

Clubwomen were commenting upon the address of Mrs. Thomas G. Winter of Minneapolis, president of the federation, who strongly recommended to the delegates consideration of a movement to create "an agency" to devise and perfect laws to prevent war. Mrs. Winter made no mention of the world court of international justice, although her address prefaced reading of a letter from President Harding dealing with the proposal for American participation in the world court.

Resolution Fate in Doubt

A resolution, which, if adopted, would have pledged the support of the federation to the world court plan, was tentatively scheduled to have been introduced by Mrs. Horace Mann Towner, director of the department of foreign relations, but since the resignation of Mrs. Towner the fate of the resolution is regarded as uncertain. In unofficial circles there is belief the resolution may yet be brought out by the resolutions committee.

In his letter, which was addressed to Mrs. Winter, President Harding said "It is plainly the considered judgment of the country that, if we are to unite with other nations in an epoch making effort, to establish adjudication of international differences, we should adhere to the court, which is already in being. That court, in its constitution represents the matured thought and purpose of men who have given most expert consideration to the subject. It is difficult to believe that a more representative, more impartial or more able tribunal could be established under any other plan."

Says Letters Show Favorable Trend
Commenting upon the apparent interest manifested by the women in the world court, President Harding asserted: "It has been most heartening to learn of the attitude of this great organization, so long devoted to the consideration of public problems, and so well trained in that field, toward the proposal that our country signify its adherence to the World Court of International Justice. You will, I am sure, be interested to know that the evidences of nationwide judgment upon this issue which come to me from every part of the country, and from every element of our citizenship, are such as to leave no doubt that the overwhelming preponderance favors the step which has been proposed."

SCHWAB'S NAME IS CLAIMED FORGED TO A \$25,000 NOTE

CLAIMED THAT NUMEROUS FORGERIES NOTICED ON WALL STREET

COMPLAINT BROUGHT TO GRAND JURY BY HENRY A. MARK, REAL ESTATE MAN

(By United Press)
New York, May 9.—Charles M. Schwab, organizer of the Bethlehem Steel company, appeared before the grand jury here today in connection with forgery of his name as endorsement for a \$25,000 note.

Schwab declared he knew the woman, who is suspected of the forgery but that she had no authority to use his name. Reports have been circulated that numerous other forgeries of Schwab's name have been noticed on Wall Street.

"There is a resemblance between that signature and mine," Schwab told the grand jury when he was presented with the fraudulently endorsed note.

"I have known the woman for 25 years and know her as a thorough business woman, but she had no authority to use my name."

The complaint was brought before the grand jury by Henry A. Mark of a Broadway real estate firm, who said he honored the document.

Counsel for the woman claimed forgery was not done maliciously and that the woman merely wished to raise funds for the erection of a hotel in Boston, her home.

Mrs. Myrtle B. Hayes Indicted

New York, May 9.—Charles M. Schwab, Bethlehem Steel chief, gave information to the grand jury here today which resulted in the indictment of Mrs. Myrtle B. Hayes, of Boston, for forging his name as endorsement to a \$25,000 note.

Mrs. Hayes, 45, admitted, it is alleged, that she wanted to take "a chance" of paying the note before it became due so that she might finance a deal of the Chatham corporation of Boston, in which she is interested.

The grand jury after taking of testimony returned an indictment of forgery in the second degree.

KNIGHTS OF COLUMBUS HAVE \$6,000,000 FUND

(By United Press)
Rochester, May 9.—Of the money donated during the war, the Knights of Columbus have more than \$6,000,000 left with which to aid soldiers, the state convention of the Knights of Columbus was told today.

T. D. O'Brien, St. Paul, informed the delegates that the money is being used in aiding schools for war veterans. Other welfare work is also being carried on, he said.

The convention opened yesterday with pontifical high mass at St. Johns church and will end tomorrow.

M. J. Mulligan, State Treasurer

Rochester, May 9.—M. J. Mulligan, St. Paul, was elected state treasurer of the Knights of Columbus at the annual convention here today.

Delegates were taken on a tour of inspection of the Mayo clinic and its hospitals this afternoon.

Hibbing was selected as the next convention city. D. F. Donovan, Duluth, was named state deputy. E. J. Jepson of Hopkins as treasurer, and J. J. Gillen, Stillwater as advocate.

Delegates chosen to represent the state at the international convention to be held in Montreal in August, are Thomas J. Kelly, Fergus Falls, John E. McGovern and Allen Haggerty, Rochester; Thomas O'Connell, St. Paul; L. W. Bach, Red Wing; O. M. Calef, Northfield and D. W. Wilson of Belle Plaine.

J. W. KOOP IS TO BUILD SOON

J. W. Koop is to build soon on his site at the northeast corner of South Seventh and Laurel streets.

The J. C. Penney Company, with general offices in New York City, has closed a 10-year lease of a space 50 by 90 feet on the ground floor of the building to be constructed. Under its terms, construction is to commence soon, and the quarters are to be ready for their occupancy by August 1, 1923.

This will give the Penney store 50 feet frontage on Seventh street and 90 feet on Laurel street. C. A. Priess conducted the negotiations in Brainerd.

The Penney company will make the Brainerd store one of its large branches. They will handle ladies', men's and boys' ready to wear, dry goods and shoes.

'QUEEN' PURNELL HOUSE OF DAVID

SUMMONED BEFORE INVESTIGATING COMMITTEE TO DEFEND HUSBAND

(By United Press)
St. Joseph, Mich., May 9.—"Queen" Mary Purnell was summoned to appear before the House of David investigating today and defend her husband "King" Benjamin against his nemesis.

Queen Mary is to appear today and face Mrs. Hazel Mae Wuerth who charges she "vamped" Benjamin away from his first wife and that the "Seventh Son of God" as Benjamin is called, indulged in immoral practices with young girls at Shiloh.

An attempt will be made to compel the witness to divulge Benjamin's whereabouts.

STEEPLEJACK CLINGS 4 HOURS TO TIMBER IN FALL; RESCUED

Sioux City, May 9.—For nearly four hours Art Campbell, steeplejack, clung to a small timber 80 feet above ground in a smokestack he was repairing, expecting almost momentarily to be dashed to death, while firemen worked feverishly to rescue him.

Campbell had been engaged to repair the interior of the stack and had erected a temporary scaffold. As he worked the scaffolding gave away, except for one small timber which caught against a projecting brick on one side and wedged against the other, the scaffolding fell to the bottom. Campbell caught this timber, but scarcely dared to move, fearing he would loosen it. Firemen hoisted an aerial ladder to the side of the stack and though their lives were threatened by a 50 mile wind, succeeded after three hours, in making a hole through the 16 inch wall of the stack a short distance above the imperiled man, a rope was passed through, he made himself fast, and he was lowered to the bottom, where he collapsed.

I. C. C. VALUATION OF GREAT NORTHERN HIT

Washington, May 9.—Valuations tentatively assigned for the Great Northern Railway system by the interstate commerce commission were attacked in a protest filed by the Iowa state board of railroad commissioners, which asked for an opportunity before the commission to introduce evidence tending to reduce the valuation total. The commission's tentative valuation of property owned and used by the Great Northern in transportation service was approximately \$395,000,000.

NEW MYSTERIES IN ALLEGED SLAYING OF LEIGHTON MOUNT

THREE HIGH SCHOOL BOYS ASSERT THEY CUT HOLE IN LAKE PIER

CLAIMED THIS WAS 9 MONTHS AFTER NORTHWESTERN STUDENT'S DISAPPEARANCE

(By United Press)
Chicago, May 9.—New mysteries were precipitated into the alleged slaying of Leighton Mount, Northwestern University freshman, today.

Three high school boys, Raphael Kelly, Thomas J. Horan and Robert Knaggs told Evanston police that they cut a hole in the Lake Michigan pier under which the youth's body was found. They said this was nine months after Mount's disappearance and they used the inside of the structure for a dressing room when swimming in the lake.

Authorities believed that either they were playing within a few feet of Mount's skeleton in the dark interior for weeks or that it was placed there after being hidden for months elsewhere.

The grand jury probe continued with Mr. and Mrs. J. L. Mount, parents of the boy, and Miss Doris Fuchs, his sweetheart, testifying.

Mrs. Mount, a tragic figure, refuted a suicide theory and declared she urged her son to join the class rush in which he is alleged to have been slain because she didn't want him to be a "sissy".

J. Allen Mills, 1921 freshman president, returning here from Akron, Ohio, told States Attorney Robert W. Crowe's investigators that after he lead a search for Mount for several days, that President Walter Dill Scott of the university told him to "lay off."

NEW BOGUS CHECK FLOOD HITS WALL ST.

New York, May 9.—The flood of fake orders, accompanied by forged cashier's checks, which deluged Wall street brokers Monday, has continued.

Several brokers reported that they had found in their morning mail orders and checks similar to those which gave the market a brief fictitious strength, and then contributed to a sensational decline, after the fake had been disclosed.

New orders, which had been mailed from distant points on Saturday had no effect on the market. Brokers were scrutinizing all orders with care and doing no business until they had proved the worth of all checks received.

BELIEVED BODY IS FROM 'MAPLEHURST'

(By United Press)
Calumet, Mich., May 9.—A body supposedly one of the crew of the steamer Maplehurst which sunk off the Portage Lake ship canal last December 1st, was found last night near Sand Hill lake 14 miles east of here. Lighthousekeeper William Bennett found the body, which is still unidentified. Eagle Harbor coast guards left for the scene. Two of the fourteen men lost when the Maplehurst went down in a gale, are still missing.

17 YEAR OLD BOY CONFESSES MURDER

(By United Press)
Marquette, Wis., May 9.—Edwin Seger, 17 year old Merrill, Wisconsin youth, was taken into custody here last night, who confessed, according to police, to the murder of John Schilleke, night watchman at a Merrill factory, whose half cremated body was found at the plant Sunday.

7 YEAR OLD HERO SAVES 5 YEAR OLD LAD FROM DROWNING

(By United Press)
Golden Valley, N. D., May 9.—A seven year old hero won the prize today for saving the life of Hans Siverts, 5, who fell into the swollen waters of Spring Creek, near here.

The Siverts boy was caught by the current and carried down stream. Carl Maxie, his playmate, ran to the bank, caught one foot and pulled him out. Neighbors revived the boy.

FORD MAKES MOVE TO BUY HALF MILE OF RIVER FRONTAGE

STRIP BETWEEN PLANT SITE AND MISSISSIPPI RIVER IS SOUGHT

ACTION IN LINE WITH BARGE DEVELOPMENT PLANS BEING MADE

St. Paul, May 9.—The Ford Motor company has begun negotiations with the city of St. Paul and the federal government for the purchase of more than half a mile of river frontage along the site of its twin city plant at the federal high dam to be used in connection with its program for upper Mississippi river transportation development.

The decision to purchase the entire river frontage, lying between the River boulevard and the Mississippi, was reached after the recent visit of Henry Ford in which he directed full use of the river for transportation to and from the twin city plant. Developments in the Ford program were:

Plans were completed for presentation of all drawings and proposals to the federal power commission.

The final contract for the construction of the main plant, the powerhouse and the river terminals have been let to Stone & Webster, Inc., Boston construction engineers, and the builders are ready to assemble crews for actual work within 10 days after the license is granted.

Arrangements have been made with the government to extend its barge line to Minneapolis to serve the Ford tract as soon as manufacturing is begun and the Ford company is considering a plant to this service.

The Ford company proposes to use the entire river front for transportation facilities, with "assurance" of rate 20 per cent lower than rail freight schedules.

The company will consolidate in its powerhouse equipment for both hydroelectric and auxiliary steam-power.

Plans are being received for an ornamental front for the main plant overlooking the Mississippi river. The powerhouse will be of harmonizing construction.

A small park will stretch along the north end of the plant. Railroad tracks will extend from a terminal on the Ford tract directly into the plant.

L. H. Brittin, engineer who has conducted negotiations with the Ford company for the St. Paul association has returned after an absence of five weeks in which he co-operated with the Ford company and its contract engineers in preparing final plans. He visited Detroit, Boston and Washington and returned only after all details were complete for the actual beginning of work.

In Washington, at direction of Henry Ford, he conferred with war department officials regarding river transportation. Arrangements were made to have the government extend its barge line, now operating south of St. Louis, to Minneapolis. This line, consisting of 14 barges for op-

BOMBASTIC DEMAND FOR RANSOM HAS SHRUNK TO \$50,000

FEARS FOR SAFETY OF KIDNAPED INCREASE, BRIGANDS ARE SHORT OF FOOD

BELIEVED FOUR WOMEN ARE AMONG PRISONERS, CAMP MOVED INTO HILLS

(By United Press)
Peking, China, May 9, 9:30 p. m., Peking time.—Pressed on all sides by government troops, Chinese brigands who wrecked and robbed the crack Shanghai-Peking express, carrying off foreign men and women as hostages, were reported today ready to make the best of their bargain and take what ransom they were offered.

From the bombastic demand for the \$1,000,000 first asked, the bandits now are willing to accept \$50,000 according to advices from Lin Cheng.

Meanwhile fears for the safety of those still held captive increase, for the entire brigand camp is short of food and is suffering hardships.

All evidence from the zone in which the horde withdrew with its prisoners Monday, indicates that at least four women still are prisoners: Miss Lillian Auld, her aunt Mrs. Seaton and Miss Fleming, a British subject, their companion. These had reservations on the wrecked express, and prisoners who escaped the bandit camp described a woman they left behind as having white hair and a general appearance of Mrs. Seaton.

The Mexican minister here states as positive that Manuel Ancira Vera, a rich Mexican and wife were captured by the bandits and have not yet been released.

The brigands are moving further into the hills with their prisoners, away from the railroad. Besides making negotiations for release of the captives more difficult, this move also makes increasingly perilous the journey to the safety of these women who may be freed.

Negotiations are under way between Shantung government and the chiefs of the kidnappers, and it is hoped here that release of the captives will be effected in 24 hours.

CHILLING WINDS OF 'MAY WINTER'

(By United Press)
Washington, May 9.—The chilling winds of the "May winter" will bring heavier frosts and more snow to the entire Atlantic seaboard and as far south as Mississippi tonight, the weather bureau predicted.

By tomorrow, however, slowly rising temperature should mark the passing of the Alaskan storm which has swept the northwest and middle west killing some crops and setting new low temperature records for this time of the year.

Rising Temperature Today

St. Paul, May 9.—Bright sunshine and a rising temperature today brought relief from the unusual cold weather of the last two days.

Strong winds prevented heavy damage from frost in many sections last night. Horticulturists said they did not believe trees or crops were badly damaged by the cold snap, although many transplanted stocks were injured.

From below freezing the temperature rose to 40 early today.

eration of which E. F. Goltra failed to obtain a lease, will be extended to Minneapolis in the summer, preparatory to establishing full service when the manufactured product is turned out of the twin city plant of the Ford Motor company.

PREUS TO ASK COURTS TO FIX LEGALITY

GOVERNOR WISHES TO SUCCEED THE LATE SEN. NELSON

"CALL OF PEOPLE OF STATE SUCH THAT HE FEELS IT DUTY TO FILL VACANCY"

DECISION OF ATTORNEY GENERAL HILTON CITED ON APPOINTMENT NECESSARY

(By United Press)
St. Paul, May 9.—Governor Preus wishes to succeed the late Senator Nelson to the United States senatorship, but will first ask the courts to determine the legality of the contemplated procedure, he indicated in a statement today.

"The call of the people of this state is such that I feel it is my duty to fill the vacancy," he said.

"This would be most indicative of me were it not the expressed wish of the late Senator Nelson."

"Attorney General Hilton has advised me that Chapter 520 of the laws of Minnesota of 1913 is valid and controlling. This means that there must be an appointment to fill the vacancy. I want this determined by the courts or politicians and self-seeking persons would question the point in any event."

"The most of public opinion desired me to go to the senate. At that time I declined to be a candidate. The call of the people is now such that I feel it is my duty to respond. That is all I have to say at this time."

The governor will retain his office until the courts have given him an opinion.

S. D. Inventor Perfects Device for Control of Motor Temperatures

Huron, S. D., May 9.—After a year's effort, E. I. Bowe of this city has perfected a device for the control of the motor temperature of automobiles and has received from the United States patent office his patent rights to manufacture and market the product.

The device places control of the radiator cooling fan's operation in the hands of the driver through the medium of the degree of tension given to the fan drive belt. This result is obtained by a lever connection to the fan shaft whereby the tension is increased so that the fan may be operated or even stopped entirely.

The motor may be kept at a high temperature in the winter with no danger of freezing. No radiator cover is needed when the control is used, as the temperature is regulated by the mechanism.

POLICE SHAKEUP IN MINNEAPOLIS

(By United Press)
Minneapolis, May 9.—Another police shakeup took place today when A. C. Jensen dropped two patrolmen suspended another, and confirmed other suspicions and dismissals.

Several men had been dropped and suspended by Inspector John J. Galvin during the absence of the chief.

LINEMAN FALLS 40 FEET FROM POLE

CHARCOAL FIRE PROVES STUBBORN

(By United Press)
Escanaba, Mich., May 9.—Fire breaking out in a three hundred foot pile of charcoal at the plant here last night required the work of three fire companies before it was brought under control five hours later.

Government Troops Pursuing Chinese Bandits

RUSSIAN GUNBOAT CAPTURED ANOTHER ENGLISH TRAWLER

(By United Press)
London, May 9.—A Russian gunboat today captured another English trawler off Murmansk, alleging it was fishing in Russian territorial waters, according to a Central News dispatch from Hull. The subject of seizure of British trawlers by Russian crafts was one of the principal subjects of a 10-day ultimatum sent Moscow by the British government yesterday. Great Britain demanded compensation. It is reported that a Russian reply will suggest arbitration.

MRS. WINTER ASKS FEDERATION TO BACK MOVE AGAINST WAR

CLUB PRESIDENT, IN ATLANTA CONVENTION, PRESENTS LETTER

WRITTEN BY HARDING COMMENDING SUPPORT OF THE WORLD COURT

Atlanta, May 9.—With the late arrivals expected from far corners of the United States, delegates to the midbiennial council meetings of the General Federation of Women's clubs yesterday were prepared for their first business session of the week's calendar. Organization preliminaries were accomplished, and the opening session was conducted in the Baptist tabernacle.

Clubwomen were commenting upon the address of Mrs. Thomas G. Winter of Minneapolis, president of the federation, who strongly recommended to the delegates consideration of a movement to create "an agency" to devise and perfect laws to prevent war. Mrs. Winter made no mention of the world court of international justice, although her address prefaced reading of a letter from President Harding dealing with the proposal for American participation in the world court.

Resolution Fate in Doubt

A resolution, which, if adopted, would have pledged the support of the federation to the world court plan, was tentatively scheduled to have been introduced by Mrs. Horace Mann Towner, director of the department of foreign relations, but since the resignation of Mrs. Towner the fate of the resolution is regarded as uncertain. In unofficial circles there is belief the resolution may yet be brought out by the resolutions committee.

In his letter, which was addressed to Mrs. Winter, President Harding said "It is plainly the considered judgment of the country that, if we are to unite with other nations in an epoch making effort, to establish adjudication of international differences, we should adhere to the court, which is already in being. That court, in its constitution represents the matured thought and purpose of men who have given most expert consideration to the subject. It is difficult to believe that a more representative, more impartial or more able tribunal could be established under any other plan."

Says Letters Show Favorable Trend

Commenting upon the apparent interest manifested by the women in the world court, President Harding asserted: "It has been most heartening to learn of the attitude of this great organization, so long devoted to the consideration of public problems, and so well trained in that field, toward the proposal that our country signify its adherence to the World Court of International Justice. You will, I am sure, be interested to know that the evidences of nationwide judgment upon this issue which come to me from every part of the country, and from every element of our citizenship, are such as to leave no doubt that the overwhelming preponderance favors the step which has been proposed."

SCHWAB'S NAME IS CLAIMED FORGED TO A \$25,000 NOTE

CLAIMED THAT NUMEROUS FORGERIES NOTICED ON WALL STREET

COMPLAINT BROUGHT TO GRAND JURY BY HENRY A. MARK, REAL ESTATE MAN

(By United Press)
New York, May 9.—Charles M. Schwab, organizer of the Bethlehem Steel company, appeared before the grand jury here today in connection with forgery of his name as endorsement for a \$25,000 note.

Schwab declared he knew the woman, who is suspected of the forgery but that she had no authority to use his name. Reports have been circulated that numerous other forgeries of Schwab's name have been noticed on Wall Street.

"There is a resemblance between that signature and mine," Schwab told the grand jury when he was presented with the fraudulently endorsed note.

"I have known the woman for 25 years and know her as a thorough business woman, but she had no authority to use my name."

The complaint was brought before the grand jury by Henry A. Mark of a Broadway real estate firm, who said he honored the document.

Counsel for the woman claimed forgery was not done maliciously and that the woman merely wished to raise funds for the erection of a hotel in Boston, her home.

Mrs. Myrtle B. Hayes Indicted

New York, May 9.—Charles M. Schwab, Bethlehem Steel chief, gave information to the grand jury here today which resulted in the indictment of Mrs. Myrtle B. Hayes, of Boston, for forging his name as endorsement to a \$25,000 note.

Mrs. Hayes, 45, admitted, it is alleged, that she wanted to take "a chance" of paying the note before it became due so that she might finance a deal of the Chatham corporation of Boston, in which she is interested.

The grand jury after taking of testimony returned an indictment of forgery in the second degree.

KNIGHTS OF COLUMBUS HAVE \$6,000,000 FUND

(By United Press)
Rochester, May 9.—Of the money donated during the war, the Knights of Columbus have more than \$6,000,000 left with which to aid soldiers, the state convention of the Knights of Columbus was told today.

T. D. O'Brien, St. Paul, informed the delegates that the money is being used in aiding schools for war veterans. Other welfare work is also being carried on, he said.

The convention opened yesterday with pontifical high mass at St. Johns church and will end tomorrow.

M. J. Mulligan, State Treasurer

Rochester, May 9.—M. J. Mulligan, St. Paul, was elected state treasurer of the Knights of Columbus at the annual convention here today.

Delegates were taken on a tour of inspection of the Mayo clinic and its hospitals this afternoon.

Hibbing was selected as the next convention city. D. F. Donovan, Duluth, was named state deputy, E. J. Jepson of Hopkins as treasurer, and J. J. Gillen, Stillwater as advocate.

J. W. KOOP IS TO BUILD SOON

J. W. Koop is to build soon on his site at the northeast corner of South Seventh and Laurel streets.

The J. C. Penney Company, with general offices in New York City, has closed a 10-year lease of a space 50 by 90 feet on the ground floor of the building to be constructed. Under its terms, construction is to commence soon, and the quarters are to be ready for their occupancy by August 1, 1923.

This will give the Penney store 50 feet frontage on Seventh street and 90 feet on Laurel street. C. A. Priess conducted the negotiations in Brainerd. The Penney company will make the Brainerd store one of its large branches. They will handle ladies', men's and boys' ready to wear, dry goods and shoes.

'QUEEN' PURNELL HOUSE OF DAVID

SUMMONED BEFORE INVESTIGATING COMMITTEE TO DEFEND HUSBAND

(By United Press)
St. Joseph, Mich., May 9.—"Queen" Mary Purnell was summoned to appear before the House of David investigation today and defend her husband "King" Benjamin against his nemesis.

Queen Mary is to appear today and face Mrs. Hazel Mae Wuerth who charges she "vamped" Benjamin away from his first wife and that the "Seventh Son of God" as Benjamin is called, indulged in immoral practices with young girls at Shiloh.

An attempt will be made to compel the witness to divulge Benjamin's whereabouts.

STEEPLEJACK CLINGS 4 HOURS TO TIMBER IN FALL; RESCUED

Sioux City, May 9.—For nearly four hours Art Campbell, steeplejack, clung to a small timber 80 feet above ground in a smokestack he was repairing, expecting almost momentarily to be dashed to death, while firemen worked feverishly to rescue him.

Campbell had been engaged to repair the interior of the stack and had erected a temporary scaffold. As he worked the scaffolding gave away, except for one small timber which caught against a projecting brick on one side and wedged against the other, the scaffolding fell to the bottom. Campbell caught this timber, but scarcely dared to move, fearing he would loosen it. Firemen hoisted an aerial ladder to the side of the stack and though their lives were threatened by a 50 mile wind, succeeded after three hours, in making a hole through the 16 inch wall of the stack a short distance above the imperiled man, a rope was passed through, he made himself fast, and he was lowered to the bottom, where he collapsed.

Lighthousekeeper William Bennett found the body, which is still unidentified. Eagle Harbor coast guards left for the scene. Two of the fourteen men lost when the Maplehurst went down in a gale, are still missing.

17 YEAR OLD BOY CONFESSES MURDER

(By United Press)
Marinette, Wis., May 9.—Edwin Seger, 17 year old Merrill, Wisconsin youth, was taken into custody here last night, who confessed, according to police, to the murder of John Schillek, night watchman at a Merrill factory, whose half cremated body was found at the plant Sunday.

7 YEAR OLD HERO SAVES 5 YEAR OLD LAD FROM DROWNING

(By United Press)
Golden Valley, N. D., May 9.—A seven year old hero won the prize today for saving the life of Hans Siverts, 5, who fell into the swollen waters of Spring Creek, near here.

The Siverts boy was caught by the current and carried down stream. Carl Maxie, his playmate, ran to the bank, caught one foot and pulled him out. Neighbors revived the boy.

FORD MAKES MOVE TO BUY HALF MILE OF RIVER FRONTAGE

STRIP BETWEEN PLANT SITE AND MISSISSIPPI RIVER IS SOUGHT

ACTION IN LINE WITH BARGE DEVELOPMENT PLANS BEING MADE

St. Paul, May 9.—The Ford Motor company has begun negotiations with the city of St. Paul and the federal government for the purchase of more than half a mile of river frontage along the site of its twin city plant at the federal high dam to be used in connection with its program for upper Mississippi river transportation development.

The decision to purchase the entire river frontage, lying between the River boulevard and the Mississippi, was reached after the recent visit of Henry Ford in which he directed full use of the river for transportation to and from the twin city plant. Developments in the Ford program were:

Plans were completed for presentation of all drawings and proposals to the federal power commission.

The final contract for the construction of the main plant, the powerhouse and the river terminals have been let to Stone & Webster, Inc., Boston construction engineers, and the builders are ready to assemble crews for actual work within 10 days after the license is granted.

Arrangements have been made with the government to extend its barge line to Minneapolis to serve the Ford tract as soon as manufacturing is begun and the Ford company is considering a plant to this service.

The Ford company proposes to use the entire river front for transportation facilities, with "assurance" of rate 20 per cent lower than rail freight schedules.

The company will consolidate its powerhouse equipment for both hydroelectric and auxiliary steam-power.

Plans are being received for an ornamental front for the main plant overlooking the Mississippi river. The powerhouse will be of harmonizing construction.

A small park will stretch along the north end of the plant. Railroad tracks will extend from a terminal on the Ford tract directly into the plant.

L. H. Britton, engineer who has conducted negotiations with the Ford company for the St. Paul association has returned after an absence of five weeks in which he co-operated with the Ford company and its contract engineers in preparing final plans. He visited Detroit, Boston and Washington and returned only after all details were complete for the actual beginning of work.

In Washington, at direction of Henry Ford, he conferred with war department officials regarding river transportation. Arrangements were made to have the government extend its barge line, now operating south of St. Louis, to Minneapolis. This line, consisting of 14 barges for op-

BOMBASTIC DEMAND FOR RANSOM HAS SHRUNK TO \$50,000

FEARS FOR SAFETY OF KIDNAPED INCREASE, BRIGANDS ARE SHORT OF FOOD

BELIEVED FOUR WOMEN ARE AMONG PRISONERS, CAMP MOVED INTO HILLS

(By United Press)
Peking, China, May 9, 9:30 p. m., Peking time.—Pressed on all sides by government troops, Chinese brigands who wrecked and robbed the crack Shanghai-Peking express, carrying off foreign men and women as hostages, were reported today ready to make the best of their bargain and take what ransom they were offered.

From the bombastic demand for the \$1,000,000 first asked, the bandits now are willing to accept \$50,000 according to advices from Lin Cheng.

Meanwhile fears for the safety of those still held captive increase, for the entire brigand camp is short of food and is suffering hardships.

All evidence from the zone in which the horde withdrew with its prisoners Monday, indicates that at least four women still are prisoners: Miss Lillian Auld, her aunt Mrs. Seaton and Miss Fleming, a British subject, their companion. These had reservations on the wrecked express, and prisoners who escaped the bandit camp described a woman they left behind as having white hair and a general appearance of Mrs. Seaton.

The Mexican minister here states as positive that Manuel Ancira Verea, a rich Mexican and wife were captured by the bandits and have not yet been released.

The brigands are moving further into the hills with their prisoners, away from the railroad. Besides making negotiations for release of the captives more difficult, this move also makes increasingly perilous the journey to the safety of these women who may be freed.

Negotiations are under way between Shantung government and the chiefs of the kidnapers, and it is hoped here that release of the captives will be effected in 24 hours.

CHILLING WINDS OF 'MAY WINTER'

(By United Press)
Washington, May 9.—The chilling winds of the "May winter" will bring heavier frosts and more snow to the entire Atlantic seaboard and as far south as Mississippi tonight, the weather bureau predicted.

By tomorrow, however, slowly rising temperature should mark the passing of the Alaskan storm which has swept the northwest and middle west killing some crops and setting new low temperature records for this time of the year.

Rising Temperature Today

St. Paul, May 9.—Bright sunshine and a rising temperature today brought relief from the unusual cold weather of the last two days.

Strong winds prevented heavy damage from frost in many sections last night. Horticulturists said they did not believe trees or crops were badly damaged by the cold snap, although many transplanted stocks were injured.

From below freezing the temperature rose to 40 early today.

eration of which E. F. Goltra failed to obtain a lease, will be extended to Minneapolis in the summer, preparatory to establishing full service when the manufactured product is turned out of the twin city plant of the Ford Motor company.

NOON FIRE

Endangered 614 Laurel Street, Flame's Checked, Some Damage To Basement

Fire at 614 Laurel street endangered the quarters occupied by the Anderson Bros. dry cleaning establishment and L. Midanek, at noon Tuesday.

The flames started in the basement and were extinguished before they spread to other parts of the building.

According to Mr. Anderson, a fire was started in the furnace Tuesday morning on account of the cold wave, and the fumes of the furnace were very dirty from the past winter's use. It is thought that the gas formed burst open one of the furnace doors, and sparks flying out ignited a basket of papers nearby.

Very little damage was done by the fire, itself, but considerable stock on the second floor was badly smoked, although the extent of this damage has not as yet been determined.

The fire department, by its quick action, soon had the fire under control, which is quite remarkable from the fact that the day was very windy and there was a strong draft through the basement from an open cellar door at the rear and broken windows in the front.

Boy Scout Troop No. 2

Boy Scout Troop No. 2 of the south side is taking the tenderfoot test and progressing fine. Last Saturday night they sold a number of bird houses, finding a ready sale at the merchants and disposing of them in short order. The merchants are hearty in their support of the Boy Scouts. The money derived goes to help equip the Scout camp this summer. L. S. Zakariassen is Scoutmaster.

Has Thanksgiving Every Day

Three doctors had advised operation, but your remedy has cured me. Every day is thanksgiving for me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and all leading druggists.

TELLS OF PRISONER RESCUED FROM CAMP

(By United Press)
Tallahassee, Fla., May 9—A dramatic story of how Paul Revere White of Washington, D. C. "looking like a corpse" was rescued from State Senator T. J. Knabb's convict camp at MacClenny, was related by Mrs. Thelma Franklin before a joint legislative investigating committee here today.

First Franklin revealed that White was taken away from the Knabb camp by Prison Supervisor J. B. Thomas and Sheriff Jones of Baker county on her complaint that he was inhumanly treated.

"While en route with White to the county jail, they met Senator Knabb who tried to bribe Thomas to return to the prison" the witness charged.

Mrs. Franklin recited the details of a number of deaths in convict camps maintained by Senator Knabb, allegedly from barbarous treatment. Nine convicts from Baker county alone died in the camp during the past year, she declared.

Charges Made of Two Killings
Tallahassee, Fla., May 9—The witness charged that last Wednesday Mary Sheffield, a negro woman, and her daughter were shot to death by Warden Thompson, employed by Senator Knabb.

Supervisor Thomas who stated in a report last February that Senator Knabb's convict camps were "human slaughter pens" was quizzed today for hours by legislative investigators, but failed to give any testimony damaging Senator Knabb.

Thomas was asked to explain the disparity in his annual report and in the latter statement in which he said conditions in Knabb's camps had been "greatly exaggerated".

The latter statement, he said, was written by Representative F. O. Miller on request of Senator Knabb. He signed it, but refused to make an affidavit when requested to do so by Senator Knabb, he said.

Thomas denied there was any disparity in the two reports and that he had been offered any money to make a statement in Senator Knabb's behalf. The official report referred to general conditions in the camp when a latter statement was in relation to individual cases he told the committee. Following his testimony the committee adopted a resolution recommending that Governor Hardee remove Thomas from office.

SHOT TWICE IN A CHICKEN SHACK

(By United Press)
St. Paul, May 9—William Haimrick was shot twice here early today in a chicken shack on University avenue.

Three persons were taken to headquarters after police failed to obtain a satisfactory account of the shooting. Witnesses claimed the shooting was accidental, but police became suspicious when they were unable to find the revolver. Both bullets struck Haimrick in the leg. His condition is not serious.

New York, May 9—Judge Meyer this afternoon announced that the government's application for the injunction to restrain the New York Coffee and Sugar exchange and the New York Coffee and Sugar association from speculating in sugar prices has been denied.

Real Corset Economy

means that clever women today purchase three corsets at a time instead of one. You will be surprised to find how much money you will save on your corsets by this plan of changing them often, and you will be delighted to see how much longer they last.

The new R & G Corsets offer everything you desire in design, in workmanship, in grace, in comfort.

Strong, durable corsets for morning, lighter models for calling, and delicately-made topless corsets for evening.

Come in and see the wide assortment of R & G Corsets in our Corset Department. There is a model designed especially for your figure. Let us help you find it.

FOOCHOW, CHINA
IN MUCH DISTRESS

Report of Miss Martha Wiley, Congregational Missionary, as of February 12th

RECEIVED BY MRS E. P. SLIPP

Banditry Punished by the Southern General of Province by Having Six Men Shot

With all eyes directed on China during the episode of the bandits who held up the Shanghai-Peking express train, this report of Miss Martha Wiley, a Congregational missionary of the W. B. M. L., stationed in Foochow, China, is of interest, a copy of the report having been received by Mrs. E. P. Slipp on May 8th from Miss Emily Hartwell, also of Foochow.

Miss Hartwell spoke in the First Congregational church in Brainerd in the fall of 1921, when home in the United States on furlough. Miss Hartwell is a sister of Mrs. Ed. Tupper of Minneapolis. The report reads:

Foochow, China

February 12, 1923

My Dear Friends:

On arriving at Foochow I find the confusion and distress very great indeed. Post fighting, and expectation of future trouble prevent the usual methods of relieving suffering always attendant upon cold weather. The rich people of the city fled during the troubles and have not returned. It had been hardly possible to find a house for rent anywhere in Foochow City before the troubles as the Northern officials brought here by the military regime did not buy homes and settle here. Hundreds of houses were suddenly vacated by their flight and the income from rentals, upon which such great numbers of Chinese depend for their daily bread, was entirely cut off. And this came just at the time when prices for food and all necessities doubled.

Then again, the militarists, in retreating, took away all the real money, which brought about the complete collapse of the Fukien bank. This failure caused the closing of all smaller banks, and none have been able to resume payments. Moreover, the militarists had forced collection of taxes in many cases for years ahead, so the new Government cannot collect the legitimate taxes. The Chamber of Commerce has advanced funds on the promise of the Government to add a tax of 30% on all food and fuel supplies. This leaves the people with income from rentals gone with business paralyzed, and facing

To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance

Take Oxidized Iron: not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially predigested and ready for almost immediate absorption and assimilation by the blood, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturers if you do not obtain satisfaction. Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.

NUXATED IRON
For Red Blood, Strength and Endurance

famine prices. In the "China Press" of Feb. 6th we read "As the weeks roll by the fear that China will be visited by a severe famine this year is slowly becoming a reality, and it is now almost certain that the growing crops will be greatly ruined by the lack of winter rain. This year the winter rain has been remarkably deficient and the crops are withering away. The loss that this will cause China is going to be immense."

Robberies are not infrequent. Four men robbed a family in the house just opposite us. There were no police to help. It is said that the police have been paid only \$2.00 local currency per month, in addition to their rice. With no money for clothing they cannot do duty these cold nights. The streets are practically deserted at night. The Southern General is doing his best to prevent robberies. Six bandits, who had previously been more leniently punished, were shot. Seven others were taken to see the executions, and told to inform their gang that a similar fate awaited all who persisted. It was specially impressed upon them that if caught in other robberies, no mercy would be shown them.

The people of Fukien are determined to have self-government. The Civil Governor is a former student of a mission college and has the respect of the people. Many of the officials have studied in Mission schools. They are doing their best to put down militarism, and deserve the warm sympathy of all lovers of democracy. The poverty of the people drives them to desperation. The cold has come early. Even in November the poinsettias in our gardens were blighted by frost, something never experienced before. Every day I am besought to help redeem clothing and bedding that has been pawned for food. Five hundred old people in the Poor House who were formerly helped by the gentry and others, (\$1.60 a month), have had no help for several months. They are pawning their bedding and clothing to get food. One, an old

hunch-backed woman, told me that the stronger are stealing from the weaker ones.

With the leading families fled to other cities, how can they be asked to help? Those who came to consult Dr. Lin Hie-ding have all fled, so she has gone to Shanghai and is helping in a hospital there. Dr. Lin has lived here with us since her return from America. Another American-trained physician tells me that her hospital is nearly empty, as the families of her patients have moved away. The Mission and Government Hospitals were filled with the wounded soldiers when they first took Foochow and there are still a few of the more seriously wounded being cared for. The added expense of moving and the higher cost of living elsewhere (Foochow is said to have the lowest prices in China) has cut off the natural helpers of the poor folk left behind. This financial stringency combines to make relief from abroad an absolute necessity.

The Chinese people here are determined to put down militarism. Fukien is making a most noble struggle to rule her own province. Their thought is that the autonomy of the province is the first step in securing a true democracy.

The International Anti-Opium Association is making heroic efforts to eradicate the poppy. By official report, Fukien is the province that was cleared of the pest last year, although it is feared that replanting has occurred because of the upheaval. In a certain district it is said that the soldiers stood over the farmers forcing them to plant opium. A pumpkin seed was planted besides every opium seed. Later on, the soldiers claimed that they had ordered the opium plants pulled up. In fact it was the pumpkin plants that were pulled out. The poppies grew steadily on, bringing woe to the people and gain to the coffers of the military leaders.

Chinese New Year is upon us and the poor people must settle their debts. I am told that many, driven

to desperation by their obligations, have committed suicide, rather than stand by and see their families starve in the lonely districts many women have been mistreated by lawless soldiers or bandits and have hung themselves. The Chinese women are naturally self-respecting and prefer death to dishonor.

Little children are left neglected and unprotected. Many are begging to be admitted to the orphanage but they cannot take in any more children unless special relief funds are sent. Since my leaving on furlough children have been waiting two years. They are most needy and worthy of help, but with matters so uncertain it does not seem wise to take them in until support is assured. Will not our friends help in this time of extremity?

LEAGUE OF WOMEN
VOTERS GIVE TEA

On Saturday afternoon May 12, at 3 o'clock, the League of Women Voters will give a tea in the Civic and Commerce rooms.

Mrs. W. C. Cobb will give a summary of the principal speeches given at the national convention of the league, those of Herbert Hoover, Justice Florence Allen of the Supreme Court of Ohio and Sir Robert Cecil. The main idea seemed to be for international cooperation for the abolishment of war.

City Attorney Harry Fullerton will give a review of Justice Clarke's wonderful talk on the League of Nations which he had the pleasure of hearing in Minneapolis recently.

Roy Brown Brainerd's new vocal teacher, will give a solo. This meeting is for both men and women as all should be equally interested in this subject.

ANDY GUMP WANTS
CARTOONS STOPPED

MAN WITH NAME OF CARICATURE DECLARES COMIC STRIP BELITTLES HIM

Salem, Ore., May 8.—Unless the newspapers of the country now featuring the Andy Gump caricature immediately refrain from future publication of the comic, they will be confronted with serious litigation and may be made the targets of criminal prosecution.

This was the threat contained in a letter received here yesterday by Verden Moffit, former chief of police, from a Scott's Mills rancher, who signed his name as "Andy Gump." It was indicated in the letter that the writer had lived in Kansas for many years, but recently came to Oregon and located on a tract of land in Marion county.

I want to ask what can be done about this thing," wrote Mr. Gump, "as I will not stand being belittled in the eyes of my friends. The publication of the picture must stop."

The letter also referred to the fact that "Gump wears no man's collar." "I don't know what that means," said the letter, "but I want it understood that I am a God fearing man and will protect my rights."

Mr. Moffit will turn the letter over to his successor.

Hibbing, Minn., May 8.—Hans Menck, a visitor from Hamburg, Germany, owner of coal mines in the Ruhr district, has been visiting the iron range, inspecting steam shovel equipment and machinery at different mines. He made an automobile tour of the district.

ISN'T THIS
YOUR PROBLEM?

"I intend to save money every month but somehow it just melts away and at the end of the month there's nothing left to save."

Why not reverse things and take out a fixed sum on pay day and put it to work in an interest bearing account at this bank? Live on the rest of your salary and you'll experience the self respect and pleasure of getting ahead.

In other words, pay yourself first. It makes a world of difference in one's prosperity account.

MINNESOTA'S TONNAGE TAX LAW

ATTORNEY GENERAL C. L. HILTON did a remarkably able piece of work when he wrote the Minnesota Tonnage Tax law. Recent decisions of the United States supreme court have proved that, even though legislation may be desirable, unless it is so written that it does not violate other legislative provisions, it cannot be declared valid by the highest judicial body in the land. When the Tonnage Tax law was written there were those who held that certain features of it would not survive when tested in the higher court, and the "occupational" feature came in for considerable criticism. The attorney general, however, affirmed his belief that the law as written by him would be declared valid by the supreme court and his position has been vindicated by the decision of the court.

However mine owners may object to the provisions of the Tonnage Tax law, and even though they may ask for a restatement of their arguments before the highest court, it is certain that the law will be made operative in Minnesota. This law was written upon the demand of the majority of the people of the state, and it was written by the attorney general of the state upon the demand of the legislature. Even if the law had been declared unconstitutional by the United States supreme court it would have been re-written and re-enacted by the legislature of Minnesota, which, in its last session, demanded that if the highest court declared the law invalid, a special session of the legislature should be called to correct any defects so that the law might be made to comply with constitutional requirements.

The time to discuss the right or wrong of the law, so far as it will affect the mining interests of the state is past. The law was enacted to meet the demand of the people of the state: political parties, sensing this demand, had made it a plank in their platforms; it was duly enacted by the legislature and the supreme court of the United States has affirmed its constitutionality.

This decision will result in a large increase in the income of the state, and Minnesota will be able to function as a government without calling so heavily upon the taxpayers. But, it is fully time that Minnesotans were learning the lesson that the best interest of the state will not be completely served until sectional differences are forgotten and all are ready to share equally the costs of state government. To oppose measures that do not confer benefits upon the districts in which the opposition centers, but which do offer advantages to the sections proposing them, will not bring about the highest gains; nor will sectional attempts to shift tax burdens to others yield the best advantage to the state at large. A more unified and far-seeing attitude to the problems of the state will make for the growth and development of this commonwealth.

THE LEAGUE OF NATIONS

THE suggestion of those who would have the United States enter the League of Nations seems to be this: If the United States will enter the league, that which, up to this time, has been an inefficient instrument will speedily become a useful one. But, on the face of it, such a position assumes that the United States is to take the position of initiator of the moves made by the league, and in stirring the league so that it would function largely, America would be charged with responsibility for any unfortunate happenings resulting from the league's activities.

Such suggestions are satisfying to those who wish to have their conceit appealed to, through the suggestion that where the rest of the world has failed the United States will succeed. But conceit is not accomplishment, and the wisest leaders of the people of this country are not ready to concede that the United States can wave a magic hand and settle all of the disputes of the old world in short order.

The inference that must be drawn from suggestions that the United States would be able to stir the league to activity, does not stir the American people to any enthusiasm over entry into it. The larger nations, already members of the league, have not been willing to refer the most involved questions in Europe to the league. The vital matters involved in the invasion of the Ruhr valley have not been referred to the league, and it seems to be the wish of those, who are insisting that the United States accept membership, that this country demand the reference of such matters to the League of Nations, thereby assuming responsibility for a demand that the larger nations of Europe have been unwilling to make themselves.

It is not to be expected that America will enter the league, for the purpose of doing those unpleasant things that other nations, already members of it, have refused to do. The League of Nations cannot help Europe until Europe is willing to refer matters of importance to the League of Nations, and Europe must not expect that America will enter the league to do those disagreeable things that Europe refuses to do. As matters stand at present, America's entry into the League of Nations would be very like America becoming the League of Nations so far as the disagreeable parts of its functioning is concerned; and, having initiated things and made demands, America would be held responsible for them because they had been demanded by her.

Until the nations of Europe have shown their faith in the League of Nations, by using this instrument themselves, they cannot expect that America will enter the league to use this instrument for them. The people of the United States will feel more kindly to Europe, when Europe has given evidence of a unified attempt to settle the momentous problems that are disturbing the life of the nations over there, and are reflected in conditions at this side of the Atlantic, through their effect upon the world market. A little manifestation of confidence in the League of Nations, as an instrument of international good, by the nations already members of it, will go a long way towards convincing nations that are not members that the instrument is worth while.

EDUCATION

WE venture the prediction that, in the days that lie ahead, educationalists will give more attention to educating people for

leisure than for work. The conditions of our time do not suggest that people are not qualified to do a job, so much as they show that people are not prepared to live when they are not at work. Behavior at work is not causing concern to the degree that behavior in leisure hours is causing leaders to think.

Henry Ford can make an efficient workman in three weeks of a boy who has not had a higher education and has not been taught to make automobiles in school. The professions in the United States are overcrowded, and there has been a tendency for parents to direct their children into occupations wherein they would not soil their hands. If the schools give their attention to producing skilled workmen in vast numbers, the time may come when there will be too many skilled workmen for the jobs that are open. If this country is to call upon Europe to furnish unskilled labor, it is possible that skilled workers in ever-increasing numbers may be used; but it would be much better for the United States if conditions were so adjusted that the unskilled worker would have adequate compensation and would not be called from foreign shores but born on American soil.

It is becoming increasingly evident that education is not providing those interests that serve the needs of leisure. Young people are chasing after cheap pleasures that often end in dissipation and their elders are not finding enjoyment and satisfaction in those things that are really worth while. The unrest, the demand for change, the sensational stories of domestic tragedy, are not to be attributed to education but to lack of education. Education has more or less failed to beget an interest in those things that satisfy during leisure hours; it has prepared men for their life's work but has failed to prepare them to live their lives.

Educationalists are realizing this, and are attempting to shift the emphasis of the schools to those cultural interests that will afford satisfaction during the hours in which men do not toil, so that the restlessness that characterizes the present age may be cured through people finding enjoyment in literature, art, music and the finer pursuits.

ENVIRONMENT WINS AGAIN

MUCH interest has been taken in the child in Chicago who was claimed by two women, one the mother of the girl and the other the foster mother. Certain circumstances, that need not be detailed, led to the placing of the child in a home, and to the taking of her from the home in her babyhood by the woman who has mothered her from that day until the time when the mother discovered her whereabouts and entered court to lay claim to her.

The case arising out of this set of circumstances was a delicate one and, in the end, the decision was left with the child, who, although she admitted that she liked the lady who announced that she was her mother, chose to remain with the woman who had mothered her from babyhood to the teen age.

The decision scores one for environment. Heredity may play a part in life, but the child is shaped by the associations of its life, and many of the inborn tendencies may be checked, diverted or transformed by the influences of the years of growth and development. By no amount of persuasion was the mother able to convince the girl that her motherhood would mean an affection and interest stronger than those offered her by her foster mother. She knew the care and tenderness that had been lavished upon her by the one who had raised her and she was not willing to leave that which had proved to be good for that which she had not tested. The child's decision was an intelligent one. It may be that the mother would have offered a depth of sympathetic understanding that the foster mother could not offer, but the child knew the one and did not care to risk the possibility of the other.

This interesting incident in the life of a girl shows the power of influence upon a child, that kindness and sympathy win a child's loyalty, and that the bonds that are woven of the threads of service for a child are stronger than those of blood.

This opens up a vast field of thought. If such is true of a child, it is probably true of a people. National grudges and spites and hatreds are not born, they are grown. Class consciousness and national consciousness are not natal; they are cultivated. Therefore, any people who impose their evils and repressions upon a growing generation are preparing the spirit of hatred, while a people that treats another with kindness and sympathy will win that people's loyalty. The golden rule wins in the end.

IN THE WAKE OF THE SPEEDSTER

THE season is not yet far advanced but already many have died beneath the wheels of automobiles, and the toll of life taken by automobiles this year is likely to be much higher than that of last year. All kinds of pledges are being submitted to automobile drivers, in which they pledge themselves to drive at a moderate rate of speed and with reasonable care. The tendency seems to be to lay all of the blame upon the person at the wheel and none of the blame upon the person crossing the street.

In dealing with the rising toll of automobile accidents, the Saturday Evening Post has pointed out that those who cross the streets may be just as guilty as those who drive the cars. The speedster on foot, who rushes across the street, dodging the traffic, may himself escape, but through his disturbing the driver, another pedestrian may be struck. If the rights of drivers are to be curtailed the rights of persons on foot must be restricted. Road hogs and crossing hogs are both dangerous to the public and they ought to be made uncomfortable by the public. The man who seeks to save two seconds in crossing the street is just as guilty as the man at the wheel who would save two minutes in reaching his destination. A broken back or a broken neck is too high a price to pay for the advantage gained by speeding on the street, or speeding over a crossing in front of a speedier means of locomotion than the feet.

There are ordinances that prohibit foot passengers from crossing the streets, except at the assigned points, and these ought to be enforced, and the person crossing the street who, through his unreasonable haste and carelessness endangers the lives of others, should be summarily dealt with. The liberty of a person on the streets must be redefined in the light of the more modern means of travel. He who rides and he who walks has a right, but these rights are limited, the right of each limiting the right of the other.

There are those who cling to their supposed rights and demand that they be secured to them, who fail to see that each advance in civilization, while it brings certain privileges, brings also certain restrictions. Time was when dwellers in rural places studiously refused to pull to one side to allow an automobile to pass, but, now, they themselves are driving cars, and resent the presence of obstructions on the roads.

After all those restraints that are imposed for the purpose of safeguarding human life, and which may save the life of the person who objects to them, should not be hard to bear. They are not made for any one individual, or any one faction, but to safeguard society at large, and society is made up of units who are safeguarded by such limitations of personal privilege.

THE dock operators blame the railroads and others blame the dock operators for the high price of coal. Whoever may be to blame, they won't have the excuse next winter that they used during last winter. Production will reduce prices.

MINNESOTA'S TONNAGE TAX LAW

ATTORNEY GENERAL C. L. HILTON did a remarkably able piece of work when he wrote the Minnesota Tonnage Tax law. Recent decisions of the United States supreme court have proved that, even though legislation may be desirable, unless it is so written that it does not violate other legislative provisions, it cannot be declared valid by the highest judicial body in the land. When the Tonnage Tax law was written there were those who held that certain features of it would not survive when tested in the higher court, and the "occupational" feature came in for considerable criticism. The attorney general, however, affirmed his belief that the law as written by him would be declared valid by the supreme court and his position has been vindicated by the decision of the court.

However mine owners may object to the provisions of the Tonnage Tax law, and even though they may ask for a restatement of their arguments before the highest court, it is certain that the law will be made operative in Minnesota. This law was written upon the demand of the majority of the people of the state, and it was written by the attorney general of the state upon the demand of the legislature. Even if the law had been declared unconstitutional by the United States supreme court it would have been re-written and re-enacted by the legislature of Minnesota, which, in its last session, demanded that if the highest court declared the law invalid, a special session of the legislature should be called to correct any defects so that the law might be made to comply with constitutional requirements.

The time to discuss the right or wrong of the law, so far as it will affect the mining interests of the state is past. The law was enacted to meet the demand of the people of the state; political parties, sensing this demand, had made it a plank in their platforms; it was duly enacted by the legislature and the supreme court of the United States has affirmed its constitutionality.

This decision will result in a large increase in the income of the state, and Minnesota will be able to function as a government without calling so heavily upon the taxpayers. But, it is fully time that Minnesotans were learning the lesson that the best interest of the state will not be completely served until sectional differences are forgotten and all are ready to share equally the costs of state government. To oppose measures that do not confer benefits upon the districts in which the opposition centers, but which do offer advantages to the sections proposing them, will not bring about the highest gains; nor will sectional attempts to shift tax burdens to others yield the best advantage to the state at large. A more unified and far-seeing attitude to the problems of the state will make for the growth and development of this commonwealth.

THE LEAGUE OF NATIONS

THE suggestion of those who would have the United States enter the League of Nations seems to be this: If the United States will enter the league, that which, up to this time, has been an inefficient instrument will speedily become a useful one. But, on the face of it, such a position assumes that the United States is to take the position of initiator of the moves made by the league, and in stirring the league so that it would function largely, America would be charged with responsibility for any unfortunate happenings resulting from the league's activities.

Such suggestions are satisfying to those who wish to have their conceit appealed to, through the suggestion that where the rest of the world has failed the United States will succeed. But conceit is not accomplishment, and the wisest leaders of the people of this country are not ready to concede that the United States can wave a magic hand and settle all of the disputes of the old world in short order.

The inference that must be drawn from suggestions that the United States would be able to stir the league to activity, does not stir the American people to any enthusiasm over entry into it. The larger nations, already members of the league, have not been willing to refer the most involved questions in Europe to the league. The vital matters involved in the invasion of the Ruhr valley have not been referred to the league, and it seems to be the wish of those, who are insisting that the United States accept membership, that this country demand the reference of such matters to the League of Nations, thereby assuming responsibility for a demand that the larger nations of Europe have been unwilling to make themselves.

It is not to be expected that America will enter the league, for the purpose of doing those unpleasant things that other nations, already members of it, have refused to do. The League of Nations cannot help Europe until Europe is willing to refer matters of importance to the League of Nations, and Europe must not expect that America will enter the league to do those disagreeable things that Europe refuses to do. As matters stand at present, America's entry into the League of Nations would be very like America becoming the League of Nations so far as the disagreeable parts of its functioning is concerned; and, having initiated things and made demands, America would be held responsible for them because they had been demanded by her.

Until the nations of Europe have shown their faith in the League of Nations, by using this instrument themselves, they cannot expect that America will enter the league to use this instrument for them. The people of the United States will feel more kindly to Europe, when Europe has given evidence of a unified attempt to settle the momentous problems that are disturbing the life of the nations over there, and are reflected in conditions at this side of the Atlantic, through their effect upon the world market. A little manifestation of confidence in the League of Nations, as an instrument of international good, by the nations already members of it, will go a long way towards convincing nations that are not members that the instrument is worth while.

Motion Picture Actor Needs More Than Looks; Faces Many Dangers

Milton Sills and Walter Long in "The Isle of Lost Ships"

The general impression current among the patrons of motion pictures that the life of a movie actor is "pretty soft" will find no champion in Milton Sills, one of the most popular of leading men, and who can now be seen at the New Park theatre in "The Isle of Lost Ships", a First National attraction produced by M. C. Levee and personally directed by Maurice Tourneur.

"If you hate hard work and are afraid of danger—don't try to become a movie actor," is Sills' advice to those youths who are ambitious for a screen career. "Choose some easy and safe job, like a stevedore, making dynamite or aviation."

"Of course there is nothing particularly strenuous or dangerous about clapping the heroine in your arms at the end of the picture and pressing a kiss on her lips, but even then you get somewhat weary of the taste of lip rouge."

"When I leave home in the morning I never know what is in store for me. I may have to take part in an automobile collision, swim five miles in a stormy sea, fight with an actor who is five times as big as I am, or jump from an aeroplane to the top of a moving train. And I've done all of those things for the benefit of motion picture fans. So do you wonder that sometimes I wish I were a business man and knew that all I would have to do during the day would be to sit at a desk?"

A cultured girl crying in fear. A convict and a sailor engaged in a fight to the death.

And the society girl must marry the winner.

This is one of the powerful situations which predominate in "The Isle of Lost Ships," produced by M. C. Levee and directed by Maurice Tourneur.

Hailed as one of the most unusual dramas ever filmed, "The Isle of Lost Ships" to be shown at the New Park on Wednesday and Thursday, is based on the famous novel, "The Isle of Dead Ships," written by that master-author, Crittenden Marriot, whose tales of the sea have brought him international renown.

The fight for the possession of the terrorized girl took place in the center of the Sargasso Sea, that myster-

ious tract in the center of the Atlantic Ocean which tradition declares has been the "graveyard" for vessels of all kinds for centuries. The suction of the Gulf Stream, sweep-

ing craft of all types into the center of the sea, which is covered to a considerable depth by seaweed, has created an "island of ships" on which the survivors have lived for countless years.

A shipwreck was responsible for the presence of the girl and the convict, both clinging madly to life. The outcome of the battle and the manner in which the trio escaped from what appeared to be life imprisonment in the sea, of weeds is vividly portrayed in "The Isle of Lost Ships."

"Powder River" at the Park Soon

"Mid Shot and Shell" that's where the picture "Powder River" to be shown at the New Park on Monday and Tuesday, May 14th and 15th under the auspices of the American Legion, will take you "straight into the mouth of Hell."

If you see it once, you will want to stay and see it again. The thrills of seeing bursting shells, Yanks going over the top at dawn, the rat-a-tat-tat of machine guns, gasing the enemy, laying the barages behind

which the doughboy is advancing to what.

To those who were not there, the picture is a distinct revelation of what occurred during the terrific struggle made by the American soldiers during the late world war. To those that were there it is a display of scenes to which he was nervously aware of at the time but which is a greater thrill because of the thousands of memories which it recalls to his mind.

SUMMER TO BE FREAK WEATHER

KING SOL DECLARED READY TO TAKE REST, SUN SPOTS BLAMED

Washington, May 8.—A "summer of freak weather" is in prospect because of solar conditions, government weather experts and scientists

Famous Poet's Love Story New Ray Photoplay Tells

CHARLES RAY in "THE GIRL I LOVED"

Charles Ray in the guise of a lover of perverid and stormy emotion—it doesn't seem natural. But that is what is promised in his second United Artists production, "The Girl I Loved," which will be shown at the Lyceum theatre on Wednesday and Thursday.

Hitherto the romances in Ray's pictures have composed a rather

jocular background, with stress placed on the humorous detail of the story. In "The Girl I Loved," the star, it is said, puts the blush all claimants for the title of supreme swain of the screen. Canvass all the lovers of the films and then discount their vehemence fifty per cent and you have a mental picture of Charles Ray's pictured emotions in his super-

feature. But with all the intensity of its passion of a young man for a maid, "The Girl I Loved" is said to be clean as all Ray pictures are. In all the probable eight reels there is no suggestion of baser emotion, though the suit of the lover is fiery enough to appeal alike to romantic woman and red-blooded man.

The Doctor Was Right

When the good old family doctor was asked about baking powders, he said:

"Use Royal. It is made from Cream of Tartar and is absolutely pure. You could dissolve a couple of teaspoons of Royal in water and drink it with benefit. That's a health test mighty few baking powders can meet."

The doctor was right.

ROYAL Baking Powder

Made from Cream of Tartar derived from grapes

Contains No Alum—Leaves No Bitter Taste

earth, indicate that the sun is working full time, and their appearance always is accompanied by plenty of heat and normal meteorological conditions on the earth.

When the sun spots do not appear, the sun "cools off" and rests. This year, for instance, it is furnishing the earth from three to four per cent less heat than usual. Under such conditions, scientists say, the weather on earth "just goes to pieces." Conditions are extreme—either very hot or very cold; very rainy or very dry; very calm or very stormy. Storms in such times are likely to be of unusual violence. Droughts and heat waves of killing intensity occur.

Monuments

Memorial Day will soon be here and you will want a monument or marker erected on the grave of your loved one to designate for all time the last resting place of those gone before.

Monuments and markers made only of the best grades of granite obtainable and first-class workmanship.

Also a fine line of flower vases. You can save money by buying at home and see what you are getting before buying. Have no agents to run up prices. Now is the time to put in your order for Memorial day. If you appreciate courteous and quick service let us know your wants.

 HIGH GRADE RUGS

Worcester, Mass., April 21, 1923.

Important—Kindly read this communication carefully and acknowledge promptly. We wish to obviate misunderstanding.

Shipments—We are pleased to advise that by May 1st, we will have shipped every customer his share of our production for Spring, 1923.

Cancellations—In the past we have cancelled all unfilled orders at the end of the season. For Fall, 1923, we will continue to ship until you have a reasonable opportunity of placing your Fall order at which time your Spring order will be automatically cancelled. If you have any special orders you wish reinstated please give us full details at once. Everything shipped AFTER MAY 1st, will be at FALL PRICES.

Withdrawal of Rug Lines—The demand is very keen. The indications are we shall be compelled to withdraw our lines at an early date. After lines have been withdrawn no stock orders for additional quantities can be accepted, but special orders will be developed where possible; the quantity to be deducted from your share of our production as it applies to your stock order.

Yours very truly,
 M. J. WHITTALL ASSOCIATES.

The foregoing is proof enough that prices on rugs will advance from time to time. We are in a position to offer rugs, all makes, at prices ranging from \$25.00 to \$150.00.

Motion Picture Actor Needs More Than Looks; Faces Many Dangers

Milton Sills and Walter Long in "The Isle of Lost Ships"

The general impression current among the patrons of motion pictures that the life of a movie actor is "pretty soft" will find no champion in Milton Sills, one of the most popular of leading men, and who can now be seen at the New Park theatre in "The Isle of Lost Ships", a First National attraction produced by M. C. Levee and personally directed by Maurice Tourneur.

"If you hate hard work and are afraid of danger—don't try to become a movie actor", is Sills' advice to those youths who are ambitious for a screen career. "Choose some easy and safe job, like a steeplejack, making dynamite or aviation.

"Of course there is nothing particularly strenuous or dangerous about clasping the heroine in your arms at the end of the picture and pressing a kiss on her lips, but even then you get somewhat weary of the taste of lip rouge.

"When I leave home in the morning I never know what is in store for me. I may have to take part in an automobile collision, swim five miles in a stormy sea, fight with an actor who is five times as big as I am, or jump from an aeroplane to the top of a moving train. And I've done all of those things for the benefit of motion picture fans. So do you wonder that sometimes I wish I were a business man and knew that all I would have to do during the day would be to sit at a desk?

A cultured girl cringing in fear. A convict and a sailor engaged in a fight to the death.

And the society girl must marry the winner.

This is one of the powerful situations which predominate in "The Isle of Lost Ships", produced by M. C. Levee and directed by Maurice Tourneur.

Hailed as one of the most unusual dramas ever filmed, "The Isle of Lost Ships" to be shown at the New Park on Wednesday and Thursday, is based on the famous novel, "The Isle of Dead Ships," written by that master-author, Crittenden Marriot, whose tales of the sea have brought him international renown.

The fight for the possession of the terrorized girl took place in the center of the Sargasso Sea, that myster-

ing craft of all types into the center of the sea, which is covered to a considerable depth by seaweed, has created an "island of ships" on which the survivors have lived for countless years.

A shipwreck was responsible for the presence of the girl and the convict, both clinging madly to life.

The outcome of the battle and the manner in which the trio escaped from what appeared to be life imprisonment in the sea, of weeds is vividly portrayed in "The Isle of Lost Ships."

"Powder River" at the Park Soon

"Mid Shot and Shell" that's where the picture "Powder River" to be shown at the New Park on Monday and Tuesday, May 14th and 15th under the auspices of the American Legion, will take you "straight into the mouth of Hell."

If you see it once, you will want to stay and see it again. The thrills of seeing bursting shells, Yanks going over the top at dawn, the rat-a-tat-tat of machine guns, gasing the enemy, laying the barrages behind

which the doughboy is advancing to what.

To those who were not there, the picture is a distinct revelation of what occurred during the terrific struggle made by the American soldiers during the late world war. To those that were there it is a display of scenes to which he was nervously aware of at the time but which is a greater thrill because of the thousands of memories which it recalls to his mind.

SUMMER TO BE FREAK WEATHER

Famous Poot's Love Story New Ray Photoplay Tells

CHARLES RAY in "THE GIRL I LOVED"

Charles Ray in the guise of a lover of perverted and stormy emotion—it doesn't seem natural. But that is what is promised in his second United Artists production, "The Girl I Loved," which will be shown at the Lyceum theatre on Wednesday and Thursday.

Hitherto the romances in Ray's pictures have composed a rather

ocular background, with stress

placed on the humorous detail of the story. In "The Girl I Loved," the star, it is said, puts the blush all claimants for the title of supreme swain of the screen. Canvass all the lovers of the films and then discount their vehemence fifty per cent and you have a mental picture of Charles Ray's pictured emotions in his super-

feature. But with all the intensity of its passion of a young man for a maid, "The Girl I Loved" is said to be clean as all Ray pictures are. In all the probable eight reels there is no suggestion of baser emotion, though the suit of the lover is fiery enough to appeal alike to romantic woman and red-blooded man.

The Doctor Was Right

When the good old family doctor was asked about baking powders, he said:

"Use Royal. It is made from Cream of Tartar and is absolutely pure. You could dissolve a couple of teaspoons of Royal in water and drink it with benefit. That's a health test mighty few baking powders can meet."

The doctor was right.

ROYAL Baking Powder

Made from Cream of Tartar derived from grapes

earth, indicate that the sun is working full time, and their appearance always is accompanied by plenty of heat and normal meteorological conditions on the earth.

When the sun spots do not appear, the sun "cools off" and rests. This year, for instance, it is furnishing the earth from three to four per cent less heat than usual. Under such conditions, scientists say, the weather on earth "just goes to pieces." Conditions are extreme—either very hot or very cold; very rainy or very dry; very calm or very stormy. Storms in such times are likely to be of unusual violence. Droughts and heat waves of killing intensity occur.

 BRAINERD'S ODDEST STORIES OF TODAY

 This may get first place in Brainerd's oddest stories.
 Party on fone—"Have you any nice round steak?"
 Dispatcher—"No, Madam."
 Party on fone—"Have you any nice sirloin steak?"
 Dispatcher—"No, Madam."
 Party on fone—"Much exasperated"—"Well, for goodness sake, why haven't you?"
 Dispatcher—"This is the Dispatcher's office, and our trains have not killed any cows lately."

predicted after intensive study of conditions on the sun.

Declaring the sun is "taking a vacation," just as it has every 11 years for a long time, scientists at the Smithsonian Institution and the weather bureau said that "topsy-turvy weather condition" would prevail all year.

Back to Normal Next Year

The sun probably will be back to normal by next year, they said.

The cold spring in the United States, unusually hot weather in Europe, hurricanes in the Pacific, a tornado and cloudburst in Washington, D. C.—these are all evidences, scientists say, of the unsettled conditions which make weather forecasting well-nigh hopeless.

Forecast Explain Cause

As nearly as the scientific men can explain it, what happens to cause such conditions is this:

Every 11 years, in the 200 years covered by reliable data, the sun has ceased developing "sun spots." These spots, which break out on the surface of the sun like volcanic craters on the

NATIONAL CHILD LABOR COMMITTEE

Offering to be Taken up For Its
Benefit at League of Women
Voters Tea

IN BRAINERD ON MAY 12TH

Child Labor is at Once the Result and
Cause of Ignorance and
Poverty

At the open meeting of the League of Women Voters held next Saturday May 12th at 3 p. m. at the rooms of the Brainerd Civic and Commerce Association, tea will be served and an offering will be taken for the benefit of the National Child Labor Committee. This committee will hold its 18th annual meeting on May 18th, in Washington D. C., in the Hall of Nations, Hotel Washington. The first subject on the program is "The Child Labor Constitutional Amendment." The first speaker will be United States Senator Medill J. McCormick. In a speech of his delivered in the senate, March 3rd, the senator said in part, "Child labor is at once the result and the cause of ignorance and poverty. It injures the child permitted or compelled to labor; it injures the society which directly permits or indirectly compels the child to labor. Obviously, child labor can not be accepted as consistent with a system of education free, universal or compulsory. Obviously, a child denied play and forbidden school is refused that physical and mental development so important to its citizenship in a democracy and the untrammelled enjoyment of life and liberty. We know that where child labor is prevalent there also is prevalent illiteracy, and there also the death rate is high. If it is tolerated in one section of the country it injures all the people in every other section of the country. We do not seek to legislate. We seek for congress the power to legislate concurrently with the States. Thereafter, congress, in the name of the whole people, will act to conserve the children of all the people—the children of America. When we have done our work, it will not be possible to buy or to sell, for pittance, the birthright of any child in this land. In a prize essay on Child Labor written in New Jersey by one of the school children occur these words: "If we read that such things occurred in China or Russia, or some other far away country which had never had a George Washington or an Abraham Lincoln, we should not think it strange. We should pity the people who live in those countries. But to know that these things are taking place in the United States, the home of liberty, makes the patriotic men and women blush for shame."

People are asked to differentiate between child work and Child Labor. A certain amount of work is desirable and good for every child. But by the term Child Labor, is meant that amount of commercialized work and under such conditions that his development as a citizen is seriously impaired. Minimum standards have been set up. They make an interesting study. Women of Brainerd and of the County are most cordially invited to attend the meeting on Saturday, and help us through a contribution however small to make up our County quota for the National Child Labor Committee.

Mrs. W. H. Gemmell.

LATE RELEASES BOOKED

Manager George Irwin Personally Reviews New Films Offered the Park

Super specials recently contracted for by the New Park theatre include "Trifling Women," featuring Lewis Stone, Ramon Navarro, and Barbara Lamar. (Note the fact that the man who has usurped Rodolph Valentino's place in the hearts of the fans appears in this picture, first time in Brainerd. See the new sheik girls). "Down to the Sea in Ships," the film that had an extended run recently at the Garrick theatre in Minneapolis and was the talk of the town "Souls for Sale," with an all star cast, Hollywood revealed, a story of high lights, shadows, loves, alliances, gossip, tragedy and humor.

Some of the specials are "Thorns and Orange Blossoms" starring Edith Roberts, Estelle Taylor, Kenneth Harlan. "Brass," which is now playing an engagement at the Blue Mouse theatre in Minneapolis.

While Manager George Irwin was in the Mill City recently he personally reviewed these pictures and believes them to be the pick of all the pictures recently released. The New Park is showing them immediately after their showing in the leading twin city theatres.

POPULAR MOVIE STAR

Ray Binder Appears in Person Tonight at New Park Theatre With Regular Program

Ray Binder (Keith Armour) a popular movie star will make a personal appearance at the New Park theatre tonight and will give a talk on how movies are made and the life and habits of the people who make them. He will try to answer all questions that are asked him by the audience, and can be interviewed at the theatre office from 7 to 10 p. m. Mr. Binder better known by the movie name (Keith Armour) co-starred with Dorothy and Lillian Gish in "Atta Boy's Last Race" and also was supported in other pictures by Alma Rubins, Ralph Lewis, Mildred Harris, Carl Stockdale and other well known stars.

C. & C. ASSOCIATION MEETING TONIGHT

The Brainerd Civic & Commerce Association has its regular meeting this evening. President H. P. Dunn presiding.

Carl Zapffe will speak on Boy Scouts and give a summary of work carried out in Brainerd and the success attained to date.

Reports will be made on the tourist camp, on buttoning for citizens to wear in assisting tourists with information etc.

The Association will be asked to prepare for the Northern Minnesota Editorial Association and to recommend a tentative date for the three days' session in Brainerd.

Bethlehem Lutheran Aid

The Ladies Aid of the Bethlehem Lutheran church will meet Thursday afternoon in the church parlors, and be entertained by Mrs. John Hanson and Mrs. Sigrid Swanson. Everybody cordially welcome.

NO REST—NO PEACE

There's no peace and little rest for the one who suffers from a bad back, and distressing urinary disorders. Brainerd people recommend Doan's Kidney Pills. Ask your neighbor! Be guided by their experience. Carl Sorman, 709 S. Broadway, Brainerd, says: "My back troubled me because my kidneys were disordered and I surely was in misery. My back pained continually and I couldn't rest at night. Mornings I was stiff and sore and had to roll out of bed. I couldn't stoop without getting a knife-like jab in my kidneys and I surely was in pain. I didn't dare to pick up anything as it seemed my back would break, it was so stiff. My kidneys acted too frequently and caused me annoyance. I bought a supply of Doan's Kidney Pills at Skauge's Drug Co. and they fixed me up in fine shape."

60c. at all dealers. Foster-Milburn Co., Mrs., Buffalo, N. Y.

WHEN BACK HURTS FLUSH OUT KIDNEYS

Drink Lots of Good Water All Day.
Also Take Salts Occasionally

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.—Adv.

HOME GARAGE WEEK NOW IN BRAINERD

Purpose of the Week is to Encourage Economy in Automobile Ownership and Operation

GARAGE MORE THAN SHELTER

Reliable Dealers Advertising in Dispatch will be Pleased to Furnish You Equipment

There is no question about the popularity of automobiles. There are over eleven million of them in the United States or one to every ten people. Putting this in another way, there are about two automobiles to every five families.

Most every family owning an automobile keeps it in their home garage. Yet the average home garage is merely a shelter for the car, without any equipment—tools and supplies which will materially reduce the upkeep expenses on a car. Not only is it possible for the car owner to keep on hand a few tools and supplies for simple adjustments and repairs, thus saving considerable money, but this equipment can easily be taken on trips for emergency uses.

The purpose of Home Garage Week May 7 to 12, is to encourage economy in automobile ownership and operation by such equipment articles as the following: screw drivers, wrenches, a little home vulcanizing outfit, tire chains, extra links, an extra tube or two, spare tire, lamp bulbs, spark plugs, a few grease cups, a supply of lubricating oil, soap for removing grease, stiff brushes for washing the wheels, chamois, sponges.

The reliable dealers advertising in the Dispatch will be pleased to furnish you any needed equipment during Home Garage Week.

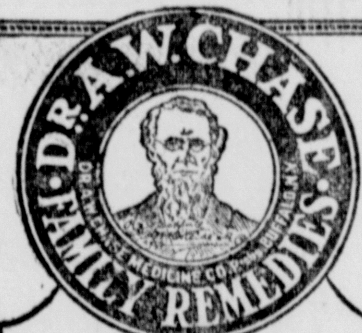

You can fill up the crank case with oil when you start off so you won't have to buy it along the road.

Parcel Show

Miss Gladys Gustafson, 1610 Mill street, entertained Saturday evening at a parcel show for Mrs. Arthur Johnson of Crosby.

The home was very prettily decorated in pink and white, and a two course luncheon was served by the hostess.

There were twenty guests present and the evening was spent informally. Mrs. Johnson was before her marriage Miss Ruth Nelson of Brainerd. She received many beautiful gifts.

Ointment

A Time-tried Home Remedy for All Skin Irritations, Eczema, Pimples, Piles, Blackheads, Chilblains and Frostbite

The pure, healing, soothing ointment, remarkable for its control over all forms of itching skin diseases. Particularly beneficial in the treatment of eczema, that torturing ailment to which so many people are subject. Best for children—chapped hands and face, insect bites, sore feet. Not injurious to the most delicate, tender skin. Read below what Miss Lillian Durgan of 136 E. Miller St., Alpena, Michigan, says:

"I will say that Dr. A. W. Chase's Ointment helped me wonderfully. It took the pimples and blackheads off my nose and made my skin clear. You may use my testimony so that it may benefit others as it did me."

You can buy Dr. Chase's Ointment at all drug stores. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M.D. are on each box—your protection against imitations.

Dr. A. W. CHASE MEDICINE CO.
257 Washington St., Buffalo, N. Y.

COUNTY EXHIBIT AID

Each County Exhibiting at State Fair will Be Given \$350 Aid

Every county in Minnesota, which makes an exhibit at the Minnesota State Fair, September 1 to 8, will be given \$350 to help defray the cost of preparing the exhibit, even though it scores only 800 out of a possible 1,250 points, according to Superintendent R. F. Hall of the agricultural department.

The offer of this guarantee is arousing such interest everywhere in the state that three times the number of county exhibits which were at the fair in 1922 are expected this fall. Money has been set aside by the fair to accommodate forty exhibits, representing about one-half of all the counties in the state. Thousands of pamphlets explaining the offer of the fair are being distributed by Mr. Hall. Counties are being urged to make exhibits to advertise the resources of the state to the thousands of persons from other states, who will attend the fair, and assist in the development of Minnesota resources.

Entries must be made by August 27. Cash prizes totaling \$15,555 have been set aside to finance the county exhibit feature. No county will draw less than \$350, and it is possible to get as much as \$480. In addition, three big silver cups valued at \$435 each will be awarded to the leading counties in the southern, middle and northern sections of the state.

A booklet giving full information about the county exhibit classes and prizes may be obtained by writing to R. F. Hall, Minnesota State Fair, Hamline, Minnesota.

LOST AND FOUND—CALL 74

WOODROW

All farmers near here are now busy with their spring work.

Mr. and Mrs. Erick Peterson of Klondike visited Sunday at the John Nelson home.

Mrs. Edward Norgard, Dorothea Gerth, Albert Barta, Henry and Trueman Datan and Mrs. J. Nelson's son Thomas were Brainerd callers Tuesday.

Arthur Johnson returned to Minneapolis on Wednesday.

John Dullum was a Brainerd visitor last Tuesday.

Mr. and Mrs. Harry Strand and family called at Ole Norgard on Wednesday evening.

Mr. and Mrs. Joe Shufflin are the proud parents of a baby girl who is the first child in their family.

Carl Bentley called at Ole Norgard on Sunday afternoon.

Miss Theodore Sather was a Brainerd caller Friday.

Mrs. Henry McLeck and son have returned to Minneapolis after a visit with her sister, Mrs. Harry Strand.

The Misses Minnie and Inga Nelson were Brainerd visitors Friday between trains.

NATIONAL CHILD LABOR COMMITTEE

Offering to be Taken up For Its Benefit at League of Women Voters Tea

IN BRAINERD ON MAY 12TH

Child Labor is at Once the Result and Cause of Ignorance and Poverty

At the open meeting of the League of Women Voters held next Saturday, May 12th at 3 p. m. at the rooms of the Brainerd Civic and Commerce Association, tea will be served and an offering will be taken for the benefit of the National Child Labor Committee. This committee will hold its 15th annual meeting on May 18th, in Washington D. C., in the Hall of Nations, Hotel Washington. The first subject on the program is "The Child Labor Constitutional Amendment." The first speaker will be United States Senator Medill J. McCormick. In a speech of his delivered in the senate, March 3rd, the senator said in part, "Child labor is at once the result and the cause of ignorance and poverty. It injures the child permitted or compelled to labor; it injures the society which directly permits or indirectly compels the child to labor. Obviously, child labor cannot be accepted as consistent with a system of education free, universal or compulsory. Obviously, a child denied play and forbidden school is refused that physical and mental development so important to its citizenship in a democracy and the untrammelled enjoyment of life and liberty. We know that where child labor is prevalent there also is prevalent illiteracy, and there also the death rate is high. If it is tolerated in one section of the country it injures all the people in every other section of the country. We do not seek to legislate. We seek for congress the power to legislate concurrently with the States. Thereafter, congress, in the name of the whole people, will act to conserve the children of all the people—the children of America. When we have done our work, it will not be possible to buy or to sell, for pittance, the birthright of any child in this land. In a prize essay on Child Labor written in New Jersey by one of the school children occur these words: "If we read that such things occurred in China or Russia, or some other far away country which had never had a George Washington or an Abraham Lincoln, we should not think it strange. We should pity the people who live in those countries. But to know that these things are taking place in the United States, the home of liberty, makes the patriotic men and women blush for shame."

People are asked to differentiate between child work and Child Labor. A certain amount of work is desirable and good for every child. But by the term Child Labor, is meant that amount of commercialized work and under such conditions that his development as a citizen is seriously impaired. Minimum standards have been set up. They make an interesting study. Women of Brainerd and of the County are most cordially invited to attend the meeting on Saturday, and help us through a contribution however small to make up our County quota for the National Child Labor Committee.

Mrs. W. H. Gemmill.

Ray Binder Appears in Person Tonight at New Park Theatre With Regular Program

Ray Binder (Keith Armour) a popular movie star will make a personal appearance at the New Park theatre tonight and will give a talk on how movies are made and the life and habits of the people who make them. He will try to answer all questions that are asked him by the audience, and can be interviewed at the theatre office from 7 to 10 p. m. Mr. Binder better known by the movie name (Keith Armour) co-starred with Dorothy and Lillian Gish in "Atta Boy's Last Race" and also was supported in other pictures by Alma Rubins, Ralph Lewis, Mildred Harris, Carl Stockdale and other well known stars.

C. & C. ASSOCIATION MEETING TONIGHT

The Brainerd Civic & Commerce Association has its regular meeting this evening. President H. P. Dunn presiding.

Carl Zapffe will speak on Boy Scouts and give a summary of work carried out in Brainerd and the success attained to date.

Reports will be made on the tourist camp, on buttons for citizens to wear in assisting tourists with information etc.

The Association will be asked to prepare for the Northern Minnesota Editorial Association and to recommend a tentative date for the three days' session in Brainerd.

Bethlehem Lutheran Aid

The Ladies Aid of the Bethlehem Lutheran church will meet Thursday afternoon in the church parlors, and be entertained by Mrs. John Hanson and Mrs. Sigred Swanson. Everybody cordially welcome.

NO REST—NO PEACE

There's no peace and little rest for the one who suffers from a bad back, and distressing urinary disorders. Brainerd people recommend Doan's Kidney Pills. Ask your neighbor! Be guided by their experience.

Carl Sorman, 709 S. Broadway, Brainerd, says: "My back troubled me because my kidneys were disordered and I surely was in misery. My back pained continually and I couldn't rest at night. Mornings I was stiff and sore and had to roll out of bed. I couldn't stoop without getting a knife-like jab in my kidneys and I surely was in pain. I didn't dare to pick up anything as it seemed my back would break, it was so stiff. My kidneys acted too frequently and caused me annoyance. I bought a supply of Doan's Kidney Pills at Skauge's Drug Co. and they fixed me up in fine shape."

60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

WHEN BACK HURTS FLUSH OUT KIDNEYS

Drink Lots of Good Water All Day. Also Take Salts Occasionally

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.—Adv.

HOME GARAGE WEEK NOW IN BRAINERD

Purpose of the Week is to Encourage Economy in Automobile Ownership and Operation

GARAGE MORE THAN SHELTER

Reliable Dealers Advertising in Dispatch will be Pleased to Furnish You Equipment

There is no question about the popularity of automobiles. There are over eleven million of them in the United States or one to every ten people. Putting this in another way, there are about two automobiles to every five families.

Most every family owning an automobile keeps it in their home garage. Yet the average home garage is merely a shelter for the car, without any equipment—tools and supplies which will materially reduce the up-keep expenses on a car. Not only is it possible for the car owner to keep on hand a few tools and supplies for simple adjustments and repairs, thus saving considerable money, but this equipment can easily be taken on trips for emergency uses.

The purpose of Home Garage Week May 7 to 12, is to encourage economy in automobile ownership and operation by such equipment articles as the following: screw drivers, wrenches, a little home vulcanizing outfit, tire chains, extra links, an extra tube or two, spare tire, lamp bulbs, spark plugs, a few grease cups, a supply of lubricating oil, soap for removing grease, stiff brushes for washing the wheels, chamols, sponges.

The reliable dealers advertising in the Dispatch will be pleased to furnish you any needed equipment during Home Garage Week.

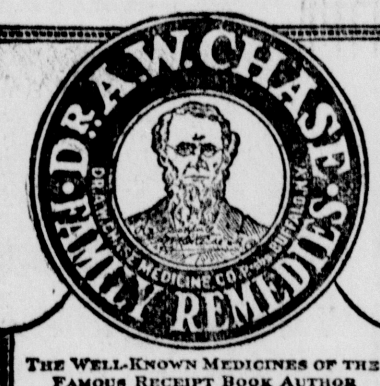

You can fill up the crank case with oil when you start off so you won't have to buy it along the road.

Parcel Shower

Miss Gladys Gustafson, 1610 MHI street, entertained Saturday evening at a parcel shower for Mrs. Arthur Johnson of Crosby.

The home was very prettily decorated in pink and white, and a two course luncheon was served by the hostess.

There were twenty guests present and the evening was spent informally. Mrs. Johnson was before her marriage Miss Ruth Nelson of Brainerd. She received many beautiful gifts.

Ointment

A Time-tried Home Remedy for All Skin Irritations, Eczema, Pimples, Piles, Blackheads, Chilblains and Frostbite

The pure, healing, soothing ointment, remarkable for its control over all forms of itching skin diseases. Particularly beneficial in the treatment of eczema, that torturing ailment to which so many people are subject. Best for children—chapped hands and face, insect bites, sore feet. Not injurious to the most delicate, tender skin. Read below what Miss Lillian Durgan of 136 E. Miller St., Alpena, Michigan, says:

"I will say that Dr. A. W. Chase's Ointment helped me wonderfully. It took the pimples and blackheads off my nose and made my skin clear. You may use my testimonial so that it may benefit others as it did me."

You can buy Dr. Chase's Ointment at all drug stores. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M.D. on each box—your protection against imitations.

Dr. A. W. CHASE MEDICINE CO. 257 Washington St., Buffalo, N. Y.

COUNTY EXHIBIT AID

Each County Exhibiting at State Fair will Be Given \$350 Aid

Every county in Minnesota, which makes an exhibit at the Minnesota State Fair, September 1 to 8, will be given \$350 to help defray the cost of preparing the exhibit, even though it scores only 800 out of a possible 1,250 points, according to Superintendent R. F. Hall of the agricultural department.

The offer of this guarantee is arousing such interest everywhere in the state that three times the number of county exhibits which were at the fair in 1922 are expected this fall. Money has been set aside by the fair to accommodate forty exhibits, representing about one-half of all the counties in the state.

Thousands of pamphlets explaining the offer of the fair are being distributed by Mr. Hall. Counties are being urged to make exhibits to advertise the resources of the state to the thousands of persons from other states, who will attend the fair, and assist in the development of Minnesota resources.

Entries must be made by August 27. Cash prizes totaling \$15,555 have been set aside to finance the county exhibit feature. No county will draw less than \$350, and it is possible to get as much as \$450. In addition, three big silver cups valued at \$435 each will be awarded to the leading counties in the southern, middle and northern sections of the state.

A booklet giving full information about the county exhibit classes and prizes may be obtained by writing to R. F. Hall, Minnesota State Fair, Hamline, Minnesota.

LOST AND FOUND—CALL 74

WOODROW

All farmers near here are now busy with their spring work.

Mr. and Mrs. Erick Peterson of Klondike visited Sunday at the John Nelson home.

Mrs. Edward Norgard, Dorothea Gerth, Albert Barta, Henry and Trueman Daten and Mrs. J. Nelson's son Thomas were Brainerd callers Tuesday.

Arthur Johnson returned to Minneapolis on Wednesday.

John Dullum was a Brainerd visitor last Tuesday.

Mr. and Mrs. Harry Strand and family called at Ole Norgard on Wednesday evening.

Mr. and Mrs. Joe Shufflin are the proud parents of a baby girl who is the first child in their family.

Carl Bentley called at Ole Norgard on Sunday afternoon.

Miss Theodore Sather was a Brainerd caller Friday.

Mrs. Henry McLeck and son have returned to Minneapolis after a visit with her sister, Mrs. Harry Strand.

The Misses Minnie and Inga Nelson were Brainerd visitors Friday between trains.

MAYOR O'BRIEN IN ADDRESS TO COUNCIL

Speaks of Desire to be a Public Servant in the True Sense of the Word

ASSIGNS SALARY TO PARK BOARD

States Everything Possible Should be Done to Make Good Impression on Tourists

The affairs of the city of Brainerd were officially placed in the hands of the incoming council, the new mayor, Con O'Brien, and his appointive officers, on Tuesday evening, when the city council held its first regular session under the new regime.

The first business of the evening was that of organization. H. F. Michael was elected temporary chairman, receiving the unanimous vote of members present.

An informal ballot on president of the council was taken and Mr. Michael, receiving all of the votes was declared elected, the informal ballot being made a formal one by motion duly carried.

On motion, Ray Paine was nominated and unanimously elected vice-president. There was only one applicant for the office of city clerk that of the present incumbent, Mrs. E. T. Fleener. Her application was put to a vote and carried unanimously.

Mayor O'Brien's Message

Mayor O'Brien appeared before the body and delivered his message. His first act was that of making actual service to the city clerk of his assignment to the park board of the salary he will receive as mayor.

Mr. O'Brien spoke of his desire to be a public servant in the true sense of the term, and asked for the cooperation of the council in working for the city's best interest.

The tourist problem came up for consideration, Mr. O'Brien stating that everything possible should be done to make a good impression on the summer visitors. He advocated the printing of cards for distribution among the tourists, setting off the points of interest in Brainerd, and giving valuable information to those who are strangers here. He stated that he will instruct his police force to be very lenient with tourists especially in the matter of enforcing traffic regulations. Other cities were cited where traffic rules were rigidly enforced, and the tourists give these cities a very bad reputation.

Tax Question

The new mayor dwelt at length on the tax question, stating that personally he was in favor of doing away with some of the expenses of the city which tend to make taxes a burden, but since it seems to be the desire of the greatest number of citizens that the advantages made possible by the taxes be continued, he would take little action in this regard.

Following his message, Mayor O'Brien submitted his list of appointments for the coming year. The council took action on each one separately.

Appointments

On motion the name of A. A. Arnold as a member of the Water & Light Board was confirmed. Following this Carl Wright was placed on the park board, Prof W. C. Cobb, Mrs. Ben Armstrong and Mrs. W. C. Rasch were made members of the library board.

Some discussion arose over the appointments made on the police department. Several citizens spoke on the matter in addition to the debate within the council.

A ballot was taken on the name of Harry Gaskill for chief of police, receiving a vote of six in favor and three against his application, and he was declared appointed.

There were two applications for the office of dairy inspector, the present incumbent, Dr. R. A. Hallquist and Dr. C. A. Nelson. A ballot on these names resulted in 8 votes for Hallquist and 1 for Nelson.

The application of R. T. Campbell to succeed himself as city engineer received the unanimous vote of the council, as did the name of Henry McGinn as chief of the fire department and W. N. McCulloch, F. W. Fuller and F. A. Reinhardt as drivers of the fire truck. The application of Miss Eula Michael to succeed herself as city nurse was also favorably acted upon and declared elected.

Alderman Elected

The resignation of T. B. Brusegard as alderman from the second ward was read, and on motion accepted. Mr. Brusegard, since being elected to the council has disposed of his Brainerd interests and is moving out of the city. After an informal ballot had been taken, A. C. Ebert was found to have received the

majority of the votes cast, and was declared elected.

Mr. Ebert qualified under protest, but for various business reasons has since found that it will be impossible for him to serve in this capacity, and his successor will be named at the next regular meeting.

To Meet With Water & Light Board W. D. McKay secretary of the Water & Light Board presented a communication to the council requesting that this body meet with the board next week, and Wednesday evening May 16th was chosen for this meeting.

J. M. Dupuis made application for a pool hall license at 514 Front street, accompanying it with a \$25 deposit. The license was granted subject to the approval of the mayor.

On motion, \$364.55 which is in the musical entertainment fund, was ordered paid to O. E. Erickson, treasurer of the city band.

Fire Prevention Recommendations

Henry I. Cohen appeared before the council and spoke in regard to the recommendations of the fire prevention committee which made an inspection of the city some time ago. This matter was laid over until the next meeting, when the various committees will have been appointed, so that it may be referred to the proper committee.

The new president of the council met with his aldermen after the regular meeting had adjourned, to discuss with them the appointments of the various standing committees for the coming year.

DISTRICT COURT

PROCEEDINGS

In district court Tuesday afternoon the jury in the case of Louis Bauer against Edward Christensen brought in a verdict for the plaintiff, awarding him \$150.

This was a damage suit in which Mr. Bauer asked eleven thousand dollars for injuries he alleged were received in an attack by Christensen.

In the case of the Bay Lake Fruit Growers Association against A. N. Gray, the jury was empaneled on Tuesday afternoon, and the case was settled during a short recess which was called immediately thereafter.

The case of Ole Norgord against the Northern Pacific Railway Co., was called for Wednesday morning, but was also settled before it went to court.

No other cases being ready for trial, court was adjourned until Thursday morning at 9 o'clock.

ANDREW PETERSON FUNERAL

Caretaker of Woodrow Mine to Be Buried Thursday Afternoon, Rev. Winther Officiating

The funeral of Andrew Peterson, caretaker at the mine at Woodrow, will be held on Thursday afternoon, at 2 o'clock from the D. C. Whitney chapel and 2:15 from the Bethlehem Lutheran church, Rev. O. S. Winther officiating.

Mr. Peterson was born in Sweden, December 6th, 1880. He died on Monday afternoon from valvular heart disease of long standing. Deceased was a member of the local I. O. O. F. lodge, and this order will participate in the funeral services.

Evangelical Aid

The Ladies Aid of the Evangelical church, Northeast, will meet Thursday afternoon in the church parlors, and will be entertained by Mrs. A. Sheppard, Mrs. J. Gallagher, Mrs. J. Vander, Mrs. Smith, Mrs. R. Ebinger and Mrs. J. Ebinger. Everybody is cordially invited.

Norwegian-Danish Aid

The Ladies Aid of the Norwegian Danish Lutheran church will meet in the social rooms of the church Thursday afternoon at 2 o'clock. Mrs. B. J. Larson and Mrs. H. J. Haugen will entertain.

BISHOP BENNETT

TO BE ORATOR

Episcopal Divine to Deliver Commencement Exercise at Brainerd High School Exercises

HELD ON FRIDAY, JUNE 1ST

All Members of School Board Will Visit Every School to Ascertain Housing Conditions

Bishop G. G. Bennett of the Duluth diocese of the Episcopal church has been secured to deliver the commencement address at the Brainerd high school graduation exercises. This was the report given to the board of education at its regular monthly meeting on Monday night by the officers of the board and Superintendent W. C. Cobb. The commencement exercises will be held in the New Park theatre as heretofore, and the date has been set for Friday, June 1st.

A motion carried at the board meeting that all members, upon call of the building committee, should visit the various school buildings with the object in view of providing additional school room for next year.

F. M. Hagberg, chairman of the finance committee, reported having engaged I. U. White to make an estimate of the value of all of the school buildings in the city. This is necessary on account of renewing the insurance policies which expire on June 1st. All fire insurance on buildings and equipment are written under the co-insurance plan, it was explained, and run for a term of three years.

A communication from the Lowly parent-teachers association in the form of a resolution, and one from the Whittier parent-teachers association were read regarding additional school room, supervising the work of the principals and the advisability of extending the superintendent's term from one to two years. Both communications were ordered placed on file.

The committee on buildings, grounds and janitors submitted its report. It was received and that part relative to renovating desks and seats was authorized. The committee was instructed to follow up the plan as suggested for additional exits from the auditorium and obtain estimated cost of placing plaster or fireproof compound on the walls of this room.

The teachers committee reported that all teachers elected at the special meeting on April 13th have signed their contracts for the coming year with the exception of nine high school and fifteen grade teachers. A motion carried that the report be received and that the committee in conjunction with the superintendent and secretary be authorized to hire teachers to fill the positions of those

who had not signed for next year.

A written report was read covering the work of the health and sanitation committee since the last regular meeting, and the report placed on file.

The secretary was instructed to furnish a statement showing the expense paid by the board for the maintenance of the visiting nurse's car since the opening of the present school year.

Superintendent Cobb reported on the status of the Veterans training matter, relative to signing a contract with the Veterans Bureau for maintaining an agricultural department for the U. S. veterans. At present the board are not satisfied to sign this contract, owing to the fact that not a sufficient number of trainees have located in the vicinity to warrant the board in assuming this obligation.

The committee on supplies and printing, in conjunction with the superintendent and secretary, were authorized to solicit bids for supplying school paper for the whole or part of the next school year.

The building committee was authorized to purchase additional window shades where needed in the Whittier, Lowell and Lincoln buildings. The superintendent and secretary were authorized to purchase a sewing machine for the special class at the Lowell building.

The president of the board and the secretary reported that all matters pertaining to the refunding of the \$35,000 bonds due on April 1st, and the retiring of \$5,000 due on the same date, had been closed up and the cancelled bonds were now in the secretary's possession.

The usual bills were allowed and ordered paid as passed by the finance committee. All members of the board were present with the exception of Mrs. W. H. Gemmell, Mrs. A. H. Anderson and Fred Drexler.

W. B. A. Meeting

The W. B. A. of the Macabees will from Thursday May 10th to Thursday meet tonight at 7:45 at the Elks hall, day May 17th.

Season Opens NEXT WEEK

BISHOP BENNETT TO BE ORATOR

Episcopal Divine to Deliver Commencement Exercise at Brainerd High School Exercises

HELD ON FRIDAY, JUNE 1ST

All Members of School Board Will Visit Every School to Ascertain Housing Conditions

Bishop G. G. Bennett of the Duluth diocese of the Episcopal church has been secured to deliver the commencement address at the Brainerd high school graduation exercises. This was the report given to the board of education at its regular monthly meeting on Monday night by the officers of the board and Superintendent W. C. Cobb. The commencement exercises will be held in the New Park theatre as heretofore, and the date has been set for Friday, June 1st.

A motion carried at the board meeting that all members, upon call of the building committee, should visit the various school buildings with the object in view of providing additional school room for next year.

F. M. Hagberg, chairman of the finance committee, reported having engaged I. U. White to make an estimate of the value of all of the school buildings in the city. This is necessary on account of renewing the insurance policies which expire on June 1st. All fire insurance on buildings and equipment are written under the co-insurance plan, it was explained, and run for a term of three years.

A communication from the Lowell parent-teachers association in the form of a resolution, and one from the Whittier parent-teachers association were read regarding additional school room, supervising the work of the principals and the advisability of extending the superintendent's term from one to two years. Both communications were ordered placed on file.

The committee on buildings, grounds and janitors submitted its report. It was received and that part relative to renovating desks and seats was authorized. The committee was instructed to follow up the plan as suggested for additional exits from the auditorium and obtain estimated cost of placing plaster or fireproof compound on the walls of this room.

The teachers committee reported that all teachers elected at the special meeting on April 13th have signed their contracts for the coming year with the exception of nine high school and fifteen grade teachers. A motion carried that the report be received and that the committee in conjunction with the superintendent and secretary be authorized to hire teachers to fill the positions of those

who had not signed for next year.

A written report was read covering the work of the health and sanitation committee since the last regular meeting, and the report placed on file.

The secretary was instructed to furnish a statement showing the expense paid by the board for the maintenance of the visiting nurse's car since the opening of the present school year.

Superintendent Cobb reported on the status of the Veterans training matter, relative to signing a contract with the Veterans Bureau for maintaining an agricultural department for the U. S. veterans. At present the board are not satisfied to sign this contract, owing to the fact that not a sufficient number of trainees have located in the vicinity to warrant the board in assuming this obligation.

The committee on supplies and printing, in conjunction with the superintendent and secretary, were authorized to solicit bids for supplying school paper for the whole or part of the next school year.

The building committee was authorized to purchase additional window shades where needed in the Whittier, Lowell and Lincoln buildings. The superintendent and secretary were authorized to purchase a sewing machine for the special class at the Lowell building.

The president of the board and the secretary reported that all matters pertaining to the refunding of the \$35,000 bonds due on April 1st, and the retiring of \$5,000 due on the same date, had been closed up and the cancelled bonds were now in the secretary's possession.

The usual bills were allowed and ordered paid as passed by the finance committee. All members of the board were present with the exception of Mrs. W. H. Gemmell, Mrs. A. H. Anderson and Fred Drexler.

W. B. A. Meeting

The W. B. A. of the Macabees will meet tonight at 7:45 at the Elks hall.

When A Feller Needs A Friend

Is about the time you have to meet your taxes, insurance premiums, home repairs, doctors bills, fuel, lights, etc., what better friend could you have than a nice bank account? Worry causes a great many of the body ailments. A person realizing on their sick bed that they have a bank account to tide them over has a great advantage over the one who is worrying how he will pay when he gets well. Sometimes the worry alone is enough to keep the person in a weak condition.

We pay 5% on saving deposits and keep your checking account without charge. Can sell you a strong lock for \$1.50. In fact its a real bargain day with us every working day in the year. Your savings account has the advantage of working every day.

Satinella

Have you wanted a soft, lustrous silk-like fabric for bloomers, slips, gowns and where a very dainty lining is desired? No fabric we have found equals Satinella for such purposes. The line of colorings is wide and are most beautiful. \$1.00 the yard.

Queen Satin

Another fine cotton material with a very high lustre and in an extremely light weight for the very fine bloomers, slips and similar uses. A wide selection of colors and priced at \$1.10 the yard.

Undergarment Material

If you have not seen our selection of fine materials for undergarments you have missed a display which is most attractive to women. A wide variety of the daintiest shades and in various checked sheer qualities. 65c to \$1.25 the yard.

TOMMY GIBBONS IN STORY TELLS HE'S GOT WICKED PUNCH

THIRTY VICTORIES IN 34 BOUTS BY THE KNOCKOUT ROUTE IS RECORD

WAITED THREE YEARS FOR A CHANCE TO GET AFTER DEMPSEY

By TOMMY GIBBONS
Challenger of Jack Dempsey
(Written for the United Press.)
St. Paul, May 9—"Everyone is asking me what prompted me to sign up with Jack Dempsey for a heavyweight championship bout at Shelby, Montana on July 4th.

"It seems to be the general opinion that I am sure to lose, or those questions would not be put to me.

"Everyone has the ambition to reach the top in his own profession and for years I have had the hope of becoming the heavyweight champion. So when the opportunity offered itself and I felt that I was ready for it, I accepted.

"They tell me Dempsey is one of the most powerful hitters in the ring. I think my record of thirty victories in 34 bouts by knockouts will be sufficient to prove that I also have a punch. The force of the punch doesn't mean much because it counts just as much to put an opponent down for ten seconds as it does for 110 seconds.

"It is said that I am a better boxer than Dempsey, and I believe I am. But I am going to fight Dempsey and not to box him.

"For three years I have been waiting for this chance. I never bothered Dempsey with challenges and I made no effort to get a match with him until I felt certain that the time had arrived and that I was in my best possible form. I feel that way now and for that reason I accepted the bout."

WHO SAID AMERICAN FOOTBALL IS ROUGH?

Paris, May 8.—French rugby football has become so rough that the Rugby federation is considering the advisability of revising the rules so that severe penalties may be levied on clubs and players guilty of roughing it. The French sporting papers are unsparing in their criticisms of the Toulouse-Biarritz match recently played as the semi-finals in the French championship.

The match was termed as an example of street fighting for Toulouse finished with 12 players of its 15 men on the disabled list. The Biarritz casualties were 11. No substitutes are allowed in French rugby.

Rough work is not due to the rules governing the game, which is much more open than American college football, but to the keen rivalries between the teams representing the different parts of the country. The referees are also inclined to be rather lenient, apparently considering a straight arm jolt on the jaw as quite a proper method of tackling. An offending player is never ruled off the field unless his opponent is rendered completely unconscious.

FOUR AMERICAN GOLFERS WIN

(By United Press)
Deal, England, May 9.—Four of the six American golfers who remained in the British amateur championships today triumphed in the morning matches and advanced another round.

Frances Olmet, Dr. O. P. Wellington, George V. Rotan and John F. Neville were the Yankees who were victorious as the hole narrowed down to 32 contestants.

J. F. Wright of Los Angeles and Maxwell Marston, Philadelphia were put out.

WAR BETWEEN TWO ATHLETIC BODIES

COLLEGIATE ATHLETIC AUTHORITIES OF AMERICA AND EUROPE MAY HOLD OLYMPIC

New York, May 8.—Fear that the jurisdictional controversy between the Amateur Athletic union and the National Collegiate Athletic association, which broke yesterday, will jeopardize the quality of the 1924 American Olympic team, was expressed by followers of athletics.

May Become International
Not only is the dispute, which centers around Charlie Paddock, California sprinter, seen as a troublemaker for the Olympic committee, but as a wedge of international proportions that may drive apart the Amateur and the Collegiate athletic authorities of Europe which may hurt their Olympic teams.

Brigadier General Palmer F. Pierce, president of the N. C. A. A., in announcing his organization's support of Paddock in disobeying explicit orders of the A. A. U., intimates that collegiate athletic authorities of the world may organize an Olympic of their own, independent of the renewal planned for Paris next year.

The break came Thursday night when Frederick W. Rubien, national secretary of the A. A. U., announced that Paddock had automatically lost amateur recognition of that organization by defying it.

It was not until this statement came that it was known the N. C. A. A. supported Paddock's stand.

Women Defy Ruling
The A. A. U. ruling also has antagonized the Women's Swimming association of New York, which intended to permit Gertrude Ederle, Helen Wainwright and Alleen Rignin to compete in the British Isles this year.

The A. A. U. banned the proposal.

MARKET REPORT

South St. Paul Livestock

South St. Paul, May 9.—Estimated receipts at the union stockyards today: Cattle, 2,800; calves, 3,500; hogs, 13,700; sheep, 300; calves, 352.

Barley—Choice, 60¢ to 62¢.
Rye—No. 2, 73½¢; to arrive, 73½¢.

Flaxseed—Fancy, \$3.05½; to arrive, \$2.98½.

St. Paul Hay Market

Timothy—No. 1, \$18.50; No. 2, \$16; No. 3, \$11.
Alfalfa—Standard, \$20; No. 1, \$18.

Clover Mixed—No. 1, \$16; No. 2, \$13.50.

EXPECT \$1,000,000 GATE AT SHELBY

Chicago, May 9.—Loy Molumby, who with Mike Collins of Minneapolis represented business interests in Montana and landed the world's heavyweight championship match between Jack Dempsey, titleholder, and Challenger Tom Gibbons of St. Paul for Shelby, Mont., on July 4, have gone to Great Falls to complete plans for the contest.

Molumby Satisfied

Molumby was well satisfied with the arrangements made with Jack Kearns, manager for Dempsey, and expects the receipts to reach the million dollar mark. As soon as he arrives in Great Falls, plans for the arena will be drawn so that a plat of seating arrangements can be drawn and tickets placed on sale immediately.

"Closing the match was well worth any time and trouble which Collins and myself went to," Molumby said. "I feel sure the Montana business men interested in the venture are satisfied, and I am positive they will get their money back. It was a bigger proposition than I anticipated, but now that it is closed, I am sure the people of Montana will do everything possible to make it the sporting event of the decade."

Gets Extra \$50,000

Jack Kearns left for New York. Before he left he was given another \$50,000 by Molumby and Collins. This makes a total of \$150,000 which has already been turned over to Dempsey's manager. The extra \$50,000 was turned over by the promoters to assure Kearns and Dempsey that the men behind the match will go through with it regardless of rumors from the east that the contest will never take place in the west.

Kearns will remain in New York for a few days to close some business details. He will then start for Salt Lake City to look after preliminary arrangements for Dempsey's training and assist the promoters in every way possible. Kearns asserted the champion has started light training in Dempsey City, Utah. Half a dozen men sparring partners will be sent west in a few days and other arrangements made for the training camp.

Receive Ticket Request

Collins and Molumby have received numerous telegrams requesting tickets and these will be placed on file and taken care of as soon as the tickets are printed.

Eddie Kane, who looks after the interests of Gibbons, was about town and satisfied with the articles. He will have something definite to announce in a few days regarding Tom's plans for training.

SIKI CELEBRATES GEORGES' VICTORY; ENDS UP IN CELL

Paris, May 8.—Battling Siki celebrated Georges Carpentier's battle with Marcel Nilles by discharging five cartridges from a .38 caliber revolver in a crowded night resort near Porte Saint Denis, called "The Hole in the Moon."

While the habitués of the place were dancing Egyptian, Apache and Java steps and drinking cognac, Siki staggered into the place. The negro speedily went wild, finally drawing the shooting iron.

The battler did not resist when the police led him away to a cell. Afterward he told the magistrate: "I thought I was dreaming and anyway they were only blank cartridges."

TOMMY GIBBONS IN STORY TELLS HE'S GOT WICKED PUNCH

THIRTY VICTORIES IN 34 BOUTS BY THE KNOCKOUT ROUTE IS RECORD

WAITED THREE YEARS FOR A CHANCE TO GET AFTER DEMPSEY

By TOMMY GIBBONS
Challenger of Jack Dempsey
(Written for the United Press.)
St. Paul, May 9.—"Everyone is asking me what prompted me to sign up with Jack Dempsey for a heavyweight championship bout at Shelby, Montana on July 4th.
"It seems to be the general opinion that I am sure to lose, or those questions would not be put to me.
"Everyone has the ambition to reach the top in his own profession and for years I have had the hope of becoming the heavyweight champion. So when the opportunity offered itself and I felt that I was ready for it, I accepted.
"They tell me Dempsey is one of the most powerful hitters in the ring. I think my record of thirty victories in 34 bouts by knockouts will be sufficient to prove that I also have a punch. The force of the punch doesn't mean much because it counts just as much to put an opponent down for ten seconds as it does for 110 seconds.
"It is said that I am a better boxer than Dempsey, and I believe I am. But I am going to fight Dempsey and not to box him.
"For three years I have been waiting for this chance. I never bothered Dempsey with challenges and I made no effort to get a match with him until I felt certain that the time had arrived and that I was in my best possible form. I feel that way now and for that reason I accepted the bout."

WHO SAID AMERICAN FOOTBALL IS ROUGH?

Paris, May 8.—French rugby football has become so rough that the Rugby federation is considering the advisability of revising the rules so that severe penalties may be levied on clubs and players guilty of roughing it. The French sporting papers are unsparing in their criticisms of the Toulouse-Biarritz match recently played as the semi-finals in the French championship.
The match was termed as an example of street fighting for Toulouse finished with 12 players of its 15 men on the disabled list. The Biarritz casualties were 11. No substitutes are allowed in French rugby.
Rough work is not due to the rules governing the game, which is much more open than American college football, but to the keen rivalries between the teams representing the different parts of the country. The referees are also inclined to be rather lenient, apparently considering a straight arm jolt on the jaw as quite a proper method of tackling. An offending player is never ruled off the field unless his opponent is rendered completely unconscious.

FOUR AMERICAN GOLFERS WIN

(By United Press)
Deal, England, May 9.—Four of the six American golfers who remained in the British amateur championships today triumphed in the morning matches and advanced another round.

Frances Olmet, Dr. O. P. Wellington, George V. Rotan and John F. Neville were the Yankees who were victorious as the field narrowed down to 32 contestants.

J. F. Wright of Los Angeles and Maxwell Marston, Philadelphia were put out.

WAR BETWEEN TWO ATHLETIC BODIES

COLLEGIATE ATHLETIC AUTHORITIES OF AMERICA AND EUROPE MAY HOLD OLYMPIC

New York, May 5.—Fear that the jurisdictional controversy between the Amateur Athletic union and the National Collegiate Athletic association, which broke yesterday, will jeopardize the quality of the 1924 American Olympic team, was expressed by followers of athletics.

May Become International
Not only is the dispute, which centers around Charlie Paddock, California sprinter, seen as a troublemaker for the Olympic committee, but as a wedge of international proportions that may drive apart the Amateur and the Collegiate athletic authorities of Europe which may hurt their Olympic teams.

Brigadier General Palmer F. Pierce, president of the N. C. A. A., in announcing his organization's support of Paddock in disobeying explicit orders of the A. A. U., intimates that collegiate athletic authorities of the world may organize an Olympic of their own, independent of the renewal planned for Paris next year.

The break came Thursday night when Frederick W. Rubien, national secretary of the A. A. U., announced that Paddock had automatically lost amateur recognition of that organization by defying it.

It was not until this statement came that it was known the N. C. A. A. supported Paddock's stand.

Women Defy Ruling
The A. A. U. ruling also has antagonized the Women's Swimming association of New York, which intended to permit Gertrude Ederle, Helen Wainwright and Aileen Rignin to compete in the British Isles this year.

The A. A. U. banned the proposal.

MARKET REPORT

(By United Press)

South St. Paul Livestock
South St. Paul, May 9.—Estimated receipts at the union stockyards today: Cattle, 2,800; calves, 3,500; hogs, 13,700; sheep, 300; cars, 352.

Alfalfa—Standard, \$20; No. 1, \$18.
Clover Mixed—No. 1, \$16; No. 2, \$13.50.

EXPECT \$1,000,000 GATE AT SHELBY

Chicago, May 9.—Loy Molumby, who with Mike Collins of Minneapolis represented business interests in Montana and landed the world's heavyweight championship match between Jack Dempsey, titleholder, and Challenger Tom Gibbons of St. Paul for Shelby, Mont., on July 4, have gone to Great Falls to complete plans for the contest.

Molumby Satisfied
Molumby was well satisfied with the arrangements made with Jack Kearns, manager for Dempsey, and expects the receipts to reach the million dollar mark. As soon as he arrives in Great Falls, plans for the arena will be drawn so that a plat of seating arrangements can be drawn and tickets placed on sale immediately.

"Closing the match was well worth any time and trouble which Collins and myself went to," Molumby said. "I feel sure the Montana business men interested in the venture are satisfied, and I am positive they will get their money back. It was a bigger proposition than I anticipated, but now that it is closed, I am sure the people of Montana will do everything possible to make it the sporting event of the decade."

Gets Extra \$50,000
Jack Kearns left for New York. Before he left he was given another \$50,000 by Molumby and Collins.

This makes a total of \$150,000 which has already been turned over to Dempsey's manager. The extra \$50,000 was turned over by the promoters to assure Kearns and Dempsey that the men behind the match will go through with it regardless of rumors from the east that the contest will never take place in the west.

Kearns will remain in New York for a few days to close some business details. He will then start for Salt Lake City to look after preliminary arrangements for Dempsey's training and assist the promoters in every way possible. Kearns asserted the champion has started light training in Dempsey City, Utah. Half a dozen sparring partners will be sent west in a few days and other arrangements made for the training camp.

Receive Ticket Request
Collins and Molumby have received numerous telegrams requesting tickets and these will be placed on file and taken care of as soon as the tickets are printed.

Eddie Kane, who looks after the interests of Gibbons, was about town and satisfied with the articles. He will have something definite to announce in a few days regarding Tom's plans for training.

Midland Hay—No. 1, \$13; No. 2, \$9; No. 3, \$7.

Chicago Potato Market

Chicago, May 9.—Receipts 375 cars. Minnesota Red River Ohio, sacked, 80 c to 95 c.

Pitching Ace of the Yankees

"Bullet Joe" Bush, leading twirler of the American League last season, and who is being counted upon to win many games for the American League champion Yankees, is pictured in the above shooting one of his fast ones over the platter.

SIKI CELEBRATES GEORGES' VICTORY; ENDS UP IN CELL

Paris, May 8.—Battling Siki celebrated Georges Carpentier's battle with Marcel Nilles by discharging five cartridges from a .38 caliber revolver in a crowded night resort near Porte Saint Denis, called "The Hole in the Moon."

While the habitués of the place were dancing Egyptian, Apache and Java steps and drinking cognac, Siki staggered into the place. The negro speedily went wild, finally drawing the shooting iron.

The battler did not resist when the police led him away to a cell. Afterward he told the magistrate: "I thought I was dreaming and anyway they were only blank cartridges."
